Message from the MD

India continues to represent a large and attractive long-term growth opportunity with strong GDP growth, a growing middle class and young population structure. In 2015, India had one of the fastest GDP growth rates for a large economy.

However, 2015 has been very challenging with the farm sector being impacted for the second year in a row with deficit monsoons and inclement weather playing havoc towards the end of the year in Tamil Nadu. Our Farm business, which forms a significant part of the overall business, was impacted by the strong headwinds in the agrarian sector.

It gives me pleasure to share with you that despite the impact on our top line from these challenges, your company has intensified its efforts in the passenger vehicle market along with multi-pronged action in the Farm and Commercial sectors to deliver a robust bottom line.

2015 has seen significant efforts being made to refresh our passenger vehicle replacement business with the introduction of several new and differentiated products and the strengthening of offerings in the SUV segment. Focus has also been on expanding our distribution footprint and rapid strides were made in expanding the branded store format. Digital continues to be an area of focus for the business with significant efforts in improving consumer experience and engagement. The year 2015 has seen the introduction of a refreshed website with some innovative consumer friendly tools and enablers.

In the farm business for 2015, your Company received awards from top tractor manufacturers such as M&M, TAFE, Escorts Agro Machinery and John Deere. These awards confirm the high trust and confidence our customers have reposed on us. The replacement business continued its focus on expansion and building channel health through a nurturing win-win relationship based approach with trade partners. A dealer relationship management program formed the basis for this approach. Product innovation continued with new introductions planned to capture additional opportunities.

Corporate Social Responsibility has been an area of immense focus in the year gone by. Your company has introduced two new programs as part of its sustainability drive with "Safer Roads, Safer You" and "Healthy India program". These programs are targeted at improving road safety and augmenting sanitation infrastructure respectively, two areas that are close to the heart of Goodyear.

2016 is likely to post a reversal in the fortunes of your company's farm business with expectations of a normal monsoon. Your company is well placed to capitalise on the opportunities in the rural economy. With the expected improvement in the economy, the Indian passenger tyre industry is expected to likely show a moderate growth in 2016.

In 2016, your company will also continue to focus on building/enhancing value for various stakeholders of Goodyear India. Expanding its distribution footprint, strengthening its presence in the branded retail segment alongwith improving overall brand strength and salience will remain key priorities for the business.

I would like to take this opportunity to thank our valued shareholders for their continued support and trust that they have shown in our company. We will continue to work with our stakeholders – our associates as well as channel partners and suppliers to deliver great products and continue to build value for all whose lives we touch through our day to day operations.

We will also continue to build on the values of innovation and sustainability in the years to come and continue to make a difference.

Yours Sincerely,

Rajeev Anand

7. FUTURE OUTLOOK

There is an increasing trend towards mechanization, which will boost the tractor demand in the future (Source: Crisil & ICRA). In addition, Indian tractor penetration still lags behind the global average (19 Vs 21 per 1000 hectares). These trends are supported with a high focus of the Government on agriculture as reflected in the current budget. Hence, while in the short term, the industry is facing strong headwinds due to failure of monsoon for two consecutive years, the long term outlook remains robust based on industry and macro trends.

The Financial Year 2016-17 outlook seems positive with above normal predictions of the monsoons by Indian Metrology Department ("IMD") leading to overall expected growth of 6% from the Farm Sector (Source: Niti Aayog projections & IMD predictions)

The passenger tyre industry is likely to register a modest growth in the year 2016. Driving distribution expansion, increasing the reach of branded retail and building brand salience through investments in the digital space will form the cornerstones for 2016.
