MANAGEMENT DISCUSSION & ANALYSIS REPORT
Industry Structure and Developments

Over the last few years, organized retail or large-scale retail has been witnessing tremendous impetus in India. The growth story is expected to continue in the future, even though growth rate is likely to be moderated in the short term due to global economic meltdown. The company is in the business of production and sales of Kitchen appliances. Kitchenware manufacturing and retailing is one such sector within the overall household segment, which has been in the limelight recently. It is believed that growth in the housing sector coupled with changing life style will also drive the growth in sale of company's products. Recent monetary easing along with rise in demand is likely to provide some support to consumption of company's product in the financial year 2010-11. The discussion on the financial performance of the Company is covered in the Director's report.

Opportunities and Threats

The company is in the process of implementing strategies to capitalize available opportunities. Given the dependence of a large fraction of the population on the rural economy and the fact that a number of product markets are under-penetrated, it provides opportunities for sustained growth for the company. Continuously increase in prices of raw material and competition from unorganized sectors, are the main threats faced by the company.

Segment wise Performance

The company has only one segment of Home Appliances and the products considered as part of the segment are Kerosene wick stove, LPG stove and Gas geysers and Kitchen Chimneys. The company is hopeful that through a combination of powerful marketing strategies, innovative new products and market development and expansion activities, it would increase its share in the domestic market of most of its products.

Outlook

Both global and Indian economies are on the path of recovery. However, persistent high level of inflation in the long run can impact the disposable income and hence the purchasing power. However, the overall market sentiment is positive and your Company expects to maintain its growth rates aided by the new range of products, barring unforeseen circumstances.

Risk and Concerns

The overall inflationary trend in general and the food inflation in particular are causes of concern. The significant and steady increase of key metal prices is a matter of concern which may have some impact on margins of your Company if it is not in a position to pass on the increase in input costs to the customers. However, with improved efficiencies and economies of scale your Company is hopeful of maintaining a healthy margin and return on capital employed.

Internal Control

The company has adequate system of management-supervised internal control, which is aimed at achieving efficiency in operations, optimum utilization of resources, effective monitoring and compliance with all applicable laws. These ensure that all corporate policies are strictly adhered to an absolute transparency is followed in accounting and all its business dealings. The company ensures adherence to all internal control policies and procedures. A qualified and independent audit committee of the Board, comprising the independent directors reviews the adequacy of internal control.

Human Resources/ Industrial Relations Front

The company continues to focus on training employees on a continuous basis. The Company continued to have the cordial and harmonious relations with its employees. The Company considers the quality of its human resources to be most important asset and constantly endeavors to attract and recruit best possible talent.

Cautionary Statement

Statements in the Management Discussion Analysis Report describing the Company's objectives and predictions may be forward looking within the meaning of applicable rules and regulations. Actual results may differ materially from those either expressed or implied in the statement depending on circumstances.

CORPORATE GOVERNANCE

For the Year 2009-10

1. Company's Philosophy on Code of Governance

Good governance facilitates effective management and control of business, maintaining a high level of business ethics and optimizing the value for all its stakeholders by maintaining the productivity with sense of corporate social responsibility.
