The Directors are more happy because now the number of satisfied shareholders who would be receiving the dividend would exceed more than 3,00,000 shareholders, who are the holders of the shares of the Amalgamating Companies, as against only 30,000 shareholders of Gujarat Ambuja Exports Limited who received the dividend last year.

The dividend proposed will entail higher outlay as compared to the last year and is thus reflection of the performance of the Company. The dividend, if declared, will be paid to those shareholders including to those who are presently the shareholders of the amalgamating companies whose names appear on the Registers of Members as on 30th March, 1999.

**REVIEW OF PERFORMANCE:** Your directors are pleased to report that inspite of the adverse market conditions, poor economic growth, relatively sluggish World economy and sudden crisis in the South East Asian Currencies, the Company could perform reasonably well.

The Honourable Gujarat High Court was pleased to sanction the Scheme of the amalgamation of Gujarat Ambuja Cotspin Limited (GACL) and Gujarat Ambuja Proteins Limited. (GAPL). This has helped the Company to consolidate its operational results and also the Group's financial strength under one head.

The Company has now the following divisions:

1. **SOLVENT EXTRACTION DIVISION:** In this division, two large sized plants of Gujarat Ambuja Proteins limited, including one at Pithampur and one at Kadi, have been added. This has increased the Oil Seed crushing capacity to significantly high at 420000 T.P.A. as against the previous capacity of 165000 T.P.A. Now the Company has in all four units at different locations.

Besides the company has also commenced a new Vanaspathi Ghee division which also has a refinery. The Commercial production at this unit started in June, 1997. The quality of the product and the Marketing Network is being established.

The total Seed crushing under all units was substantially high at 178293 Tonnes as against 49276 tonnes crushed in the previous year.

2. **COTTON SPINNING DIVISION:** In this division which has been taken over upon Amalgamation, the Company has 100% Export Oriented Undertaking of Cotton Spinning with the capacity of 58480 spindles for Ring Spinning and of 1080 Rotors for Open end Spinning and Denim fabric Manufacturing with the installed capacity of 5 Million Metres per annum. The said unit performed reasonably well inspite of the South East Asian currencies crisis which affected the sales as well as the margin.

3. **MAIZE BASED STARCH AND OTHER DERIVATIVES:** In this division which has been taken over upon Amalgamation, the Company has a modern Corn Wet milling plant, which manufactures Starch, Liquid Glucose and other derivatives from Maize. The Unit performed reasonably well inspite of the tough competition.

4. **WHEAT PROCESSING DIVISION :** In this division, which has been taken over upon Amalgamation, the Company has a Wheat Processing Unit with the Processing capacity of 45000 M.T. per annum. This unit performed reasonably well considering the fact the Wheat products were banned for exports for most of the part of the year.

During the year 1998-99, the Company has also converted two of its Solvent Extraction units into 100% Export Oriented Undertakings under the approval of the office of Development Commissioner, Kandla.

5. **SUBSIDIARIES:** The Company has also set up a wholly owned Subsidiary at Singapore under Specific Approval from the Central Government under the name GUJARAT AMBUJA INTERNATIONAL PTE. LTD. The said Company has also done good business and has reported a profit of 35300 Singapore Dollars. The subsidiary has not recommended any dividend, being the first year of operations, requiring further time to establish. The Directors are happy to report that due to the above subsidiary, your Company has direct presence in the markets where the products are exported in large volumes, giving better opportunities for building larger network of Customers and also ensuring better net realisations.

Owing to the Amalgamation, Gujarat Ambuja Soya Products Limited, whose 30% equity shares each were held by the two amalgamating companies, became subsidiary of the Company. The said Company is in the business of franchising and investments and has reported nominal profits.

**CURRENT YEAR'S OUTLOOK:** As you all must be aware the overall recession in the economy has hit almost all companies and your Company is no exception. However because of the Low Debt the Company has been able to withstand the effect of reduced margins and lower sales.

**GAEL BACKED BY 4 DIVISIONS & 2 SUBSIDIARIES**
