MANAGEMENT DISCUSSION & ANALYSIS REPORT

A. INDUSTRY STRUCTURE AND DEVELOPMENTS

The Flat Glass Industry consists of float glass, sheet glass and figured glass as well as processed glass like tempered glass, mirrors etc. In view of global technological changes taking place, the growth in the flat glass market has been taken by float glass. The Indian market where rural population is very high continues to be cost conscious and inspite of large new float capacities having been added in last ten years and imports, sheet glass continues to find market in the country though in recent times preference for float glass is becoming evident. Of late due to demographical changes, growth of middle class and higher disposable income levels, there has been significantly higher growth in Housing and Automobile sectors and the demand and supply of flat glass are almost matching. This will lead to setting up of further capacities in the country.
