6th Annual Report

DIRECTORS' REPORT TO THE MEMBERS

Your Directors have pleasure in presenting the Sixth Annual Report together with the Audited Accounts of the Company for the year ended 31st March, 1998.

FINANCIAL RESULTS

Description	(Rs.in lacs)	
	Current Year Ended 31st March '98	Previous Year Ended 31st March '97
Sales and Other Income	3444.99	2300.53
Profit before Depreciation and Financial Charges	523.48	312.72
Less : Depreciation	121.29	111.94
Financial Charges	341.22	170.26
Profit before Taxation	51.47	30.52
Less : Provision for tax	6.40	3.67
Profit after Tax	46.07	26.85
Balance of Profit Brought Forward	193.01	166.16
Surplus Carried to Balance Sheet	239.09	193.01

OPERATIONS

During the year under review, the Company attained a very satisfactory growth in its turnover and profitability. While the sales increased by 52% from Rs. 2261.96 lacs to Rs.3444.99 lacs in 1997-98, the Operating Profit increased by 59% from Rs. 312.72 Lacs to Rs. 497.68 lacs. The net profit has increased by 72% from Rs. 26.85 lacs to Rs. 46.07 lacs.

The improvement in performance was inspite of the general economic and industrial slow down as also lower capacity utilisation on account of inadequate availability of High Tension Power from Gujarat Electricity Board.

During the year the Company has been able to stabilise the plant production and has been successful in developing sophisticated products like flash light tubes, condensor tubes and other nickel based copper alloys used in various power plants and which are likely to be the mainstay of the product mix in the coming years.

The Company has also made an encouraging start

to its export drive with total export sales of Rs. 52.00 lacs during the last quarter of the financial year with the products being well accepted in the international markets. With substantial demand in the global market, the Company expects to do well on the export front.

The manufacturing facilities at Sanand have received recognition from several internationally reputed quality management agencies and this will facilitate the acquisition of the ISO 9000 status for the Company.

PHASE II

The Second Phase of the integrated project with the enhancement of the installed capacity by 4000 MT/Annum for the manufacture of small diameter rods , wires and rod coils has been deferred by a period of 12 months in view of the inordinate delay in receiving High Tension Power .

The Company has been granted an extension in the cut off date for fulfilling the import obligations under the Export Promotion Capital Goods (EPCG) Scheme and imports of additional equipments have been effected before end August '98 to enable import completion under the scheme .

Commercial production under the Second Phase is slated to commence from April'99 and introduction of various high value products like wires and small diameter rods will substantially contribute to the overall profitability of the entire project.

PROJECTIONS VS PERFORMANCE

	(Rs. in lacs)	
	Projected	Actuals
Sales and other Income	4939.86	3463.54
Profit after tax	461.13	54.57

Lower capacity utilisation at the plant due to non-availability of High Tension Power, has deterred the Company from achieving projected figures.
