OPPORTUNITIES AND THREATS

Indian economy has attained notable growth in the recent times. It describes that one of the key factor of such growth is manufacturing units and such units are performing well. Industry like us aiming for more of such developments. We are hoping for the Best. In the coming years, Company needs to focus on the areas to match with demands which will be available through development.

The demand growth and regular market situation can make Company to achieve its targets and can utilize maximum of its capacity. Biggest opportunity of the Company is Export. The Company's exports, which constitutes around more

GUJARAT INTRUX LIMITED

than 48% of its turnover, However this gives rise to market risk exposure related to change in foreign exchange rates, Interest rates, raw material prices and other market factors.

Inflationary scenario in raw material price may give untoward financial performance and profitability. The prices of sand castings depends on rough casting cost, machining cost, surface coating cost, heat treatment, packing and delivery costs. The prices of exported sand castings will be mainly affected by the exchange rate; therefore, the prices are not stable.

RISK FACTORS

Your Company regularly monitors the various risks associated with its business. Risks which are unaware are also identified by Risk Management Committee. The Risk mitigation process is reviewed by Audit and Risk Management Committee of your company. The Company continues to take suitable steps to minimize risks and their impact on Company's overall performance. Basic Risk Factors for the Company are Competition at Domestic and Exports Level, Fluctuation in the prices of basic raw materials, Shortage of Water and Power Supply also some time affect the process. In furtherance, as the Company is also exporting so Price fluctuation is the main risk factors.
