THE YEAR UNDER REVIEW

The All India Cement Consumption increased by 6.3% in 2017-18, bouncing back from negative growth in the previous fiscal year 2016-17. The growth happened on the back of increased spend on roads and railways, push towards affordable housing by Central Government and materialisation of pent up demand. The cumulative index of cement production increased by 5.7% in comparison to decline of 1.3% in previous year. The supply overhang continued in the Indian Cement industry during 2017-18 with capacity utilization of around 65%.

The demand for cement during the first half of the financial year 2017-18 was sluggish on account of after effects of demonetization and implementation of Goods and Service Tax (GST) from 1st July 2017. The adverse effect was more pronounced in housing and infrastructure segments. The cement sector's growth in the second half of 2017-18 was mainly attributable towards the initiatives being undertaken by the government to boost the infrastructure sector by additional spending on the infrastructure facilities. Consequently the cement prices remained depressed in first half of the year but bounced back in second half.

Consumption of cement in our home market Gujarat increased by about 3%. The cement prices in Gujarat also increased and are at the levels prevailing in 2014-15.

The energy costs increased significantly worldwide resulting in substantial increase in the costs of coal, pet coke and diesel for transportation.

PERFORMANCE REVIEW

Your company continued to operate at over 100% capacity utilisation and produced 1.29 million tonnes of clinker and 1.22 million tonnes of cement during the Financial Year. The overall despatches of cement & clinker during the year ended March 2018 were 1.46 million tonnes approximately 2% higher than that in the previous year. There was a significant turnaround in profitability of your Company on account of

reduction in the raw material and power costs, optimization in logistics costs coupled with improved price realisations. During the Financial Year ended 31st March 2018, your Company earned a net profit of ₹ 332.62 million as against a net loss of ₹ 321.41 million in the previous financial year.

Marketing

Your Company's major sales volumes is from the Gujarat region. However, due to the large surplus in the region, your Company continues to maintain a presence in coastal regions of Maharashtra and Kerala. The profitability of these markets remains low on account of high cost of transport and infrastructure.

NEW PROJECTS

During the year under review, the company has also commissioned its 5 MW Waste Heat Recovery Power Project (WHR) which will generated power from the process exhaust gases. Since this power plant does not consume any fossil fuel, the cost of power from WHR would be negligible which has helped the Company to reduce its cost of power. This will also result in substantial reduction in the carbon foot print of the company.
