DIRECTORS' REPORT TO SHAREHOLDERS

We have the honour to present our forty-sixth Annual Report and audited statement of accounts for the year ended March 31, 2006.

2005-2006 OPERATIONS: MAIN RESULTS

We are happy to report that both sales and profit before tax are the highest ever in the history of your Company.

Sales (including excise duty) in 2005-06 were Rs.1452 million, up 15% over the previous year. Sales net of excise duty were Rs.1364 million, up 16% over the previous year. The profit before tax was Rs.59.7 million, up 85% over the previous year. The net profit after tax for the year was Rs.40.3 million, up 30% over the previous year.

MANAGEMENT DISCUSSION AND ANALYSIS

Pressure Cookers

Pressure cooker sales volume increased by 3% and sales value by 11% over previous year. The 3% volume increase is the composite result of a 27% increase in dealer sales in the general market and a 38% decline in sales to institutions. The decline in sales to institutions was mainly caused by the initial confusion amongst our institutional customers following the introduction of the fringe benefit tax and the change from sales tax to value added tax in most states. These and other problems have been addressed by our customers and ourselves and the decline in institutional sales has been reversed by now. Along with the very buoyant trend in dealer sales in the general market, this gives us the confidence to look forward to a much better rate of growth in pressure cooker sales in the current year.

Market Research for the year 2005 shows that Hawkins continues to be the Number One brand in the pressure cooker market and that the total pressure cooker market in India is growing at 8.3% per annum.

Cookware

Cookware sales volume increased by 51% and sales value by 57% over previous year. Both the Hard Anodised and Nonstick ranges of our Futura Cookware are doing very well.

Product Design and Brand Development

Underlying the success of our brands in both the pressure cooker and cookware markets is our commitment to excellence in product design. We find that the markets are becoming increasingly responsive to good design. Your Company is well-positioned to take advantage of this emerging market trend as it has long pursued excellence

in design. You can read more about Hawkins product design on page 25 of this Annual Report and see some examples on page 26.

Material Costs

Inflation in metals, particularly aluminium and copper, during the second half of the year and continuing even as of now, is a cause for concern. Recently, there are some indications that the inflationary trend may have peaked. Meanwhile, we are continuing our efforts to persuade our principal suppliers to exercise price restraint in our mutual interest.

Expenses

As against an increase of 15.8% in sales (excluding excise duty), total expenses (excluding excise duty) increased by 7.9%. Major contributors to more economical working are -

- Lower interest costs - down from Rs.30.9 million in the previous year to Rs.20.7 million in the year under report.
- Lower advertising costs - down from Rs.76.2 million in the previous year to Rs.64.7 million in the year under report.
- Although total personnel costs increased from Rs.215 million in the previous year to Rs.233 million in the year under report, as a percentage of sales they have come down from 17.0% in the previous year to 16.1%.

A judicious control of costs continues to be a major part of our corporate strategy.

Tax Incidence

Your Company had incurred losses in the financial years 2001-02 and 2002-03. The carried-forward losses reduced the incidence of tax in the subsequent profit making years of 2003-04 and 2004-05. In the year under report, the residual brought-forward loss was Rs.14.8 million which was set off against the taxable profit of Rs.59.7 million thereby reducing the taxable profit to Rs.44.9 million.

In the year under report, therefore, the incidence of tax at the rate of 33.66% on the net taxable profit of Rs.44.9 million is Rs.15.1 million. However, the said amount of Rs.15.1 million is not payable as tax in the year because it is set off against the Deferred Tax Assets brought forward from previous years.

In the year under report, the Company has paid Rs.4.5 million on account of Fringe Benefits Tax and Rs.4.6

million on account of Minimum Alternative Tax. Thus the total tax paid in the year under report is Rs.9.1 million. However, the amount of Rs.4.6 million Minimum Alternative Tax is finally not debited to the Profit & Loss Account for the year as it is carried on the Balance Sheet as a credit entitlement of tax paid which can be set off against the tax demand of future years as permitted by law.

Cash Flow

Net cash flow from operating activities was Rs.118.4 million, up 40% over the previous year. The major use (58%) of this cash flow was to reduce long term loans and bank borrowings by Rs.68.0 million. Another use (13%) of the cash flow was to acquire fixed assets to the tune of Rs.15.5 million. Rs. 18.1 million was used to pay dividends and tax on dividends. This demonstrates the robust financial health of your Company.

Employee Morale

Morale of employees is high. Industrial relations are normal. We appreciate very much the contribution of all our employees.

Control Systems

In our judgment, the company has adequate financial and administrative systems and controls and an effective internal audit function.

Outlook

In our judgement, the outlook for our business is good. We are well-positioned to take advantage of the growth of demand in our markets and to increase our sales and profits.

All forward-looking statements in our reports are based on our assessments and judgements exercised in good faith at this time. Actual developments and/or results may differ from our anticipation.

2005-06 OPERATIONS: OTHER ASPECTS

FOB value of exports was Rs.88.6 million, up 37% over the previous year which was Rs.64.5 million. Foreign Exchange used in the year under report was Rs.13.0 million (previous year: Rs.8.6 million).

During the year we successfully launched three new models of pressure cookers: 3.5 Litre and 5 Litre Hard Anodised Hawkins Contura and 2 Litre Hawkins Ventura. In Cookware, we added 2.5 Litre round bottom Deep Fry Pan, 3 litre All Purpose Pan and 2-cup Tadka Pan.

The expenditure on Research and Development was Rs.9.1 million, 0.6% of turnover (previous year: Rs.9.9

million, 0.8%). Required details are given in the Appendix. Efforts continue in our factories to save energy wherever possible.

None of our employees received gross remuneration exceeding the limits prescribed in the Section 217(2A) of the Companies Act, 1956.

Of the fixed deposits maturing for payment prior to March 31, 2006, five fixed deposits amounting to Rs.28,198 were neither renewed nor claimed till March 31, 2006.

DIVIDEND AND APPROPRIATIONS

We are pleased to recommend Rupees Five per share as dividend at the rate of 50% (previous year: Rupees Three per share).

Out of the amount available for appropriation of Rs.47.3 million (previous year:Rs.33.1 million), we propose Rs.26.4 million as provision for dividend (previous year: Rs.15.9 million); tax on distributed profits on proposed dividend, Rs.3.7 million (previous year: Rs.2.2 million); Rs.5.0 million transfer to General Reserve (previous year: Rs.8.0 million); and Rs.12.2 million as surplus carried to the Balance Sheet (previous year: Rs.7.0 million).
