Growth in services and exports may remain sluggish too, given that global growth is unlikely to the Reserve Bank's baseline projection of GDP growth for 2013-14 is 5.7%.*

*Reflecting the trends of the overall economy, the year was not favourable for the real estate sector. It was received with a cautious sentiment amongst end-users and investors alike in the first half of the year, albeit with some momentum that began to build up in the commercial office sector while the residential sector saw more projects being launched, and the retail sector witnessed the introduction of 51.0% FDI in multi-brand retail.
