### **CHAIRMAN MESSAGE**

Dear Shareholders,

During the financial year 2020-21, the company continued to focus on debt and loss reduction. The Company took various actions during the year to meet these objectives.

Last financial year the Board had recommended that both the Enterprise and Consumer distribution businesses be gradually scaled down. Accordingly, our Consumer and Enterprise Distribution businesses have been scaled down, resulting in the decline in revenues during the year.

In our System Integration and Solution business, we continued to focus on deliverables of existing projects and collection of receivables from customers. We also took a strategic decision to divest the entire shareholding in HCL Infotech Ltd

to Novezo Consulting Pvt. Ltd, after certain carve outs. The transaction is subject to approval of statutory authorities and closure of certain conditions precedent.

The Company has been facing challenges and delays in the Systems Integration (SI) and Solutions business related to customer acceptances and payments in large contracts resulting in cost overruns and significant losses for the Company. Such delays and losses have also been the main reason for the high debt obligation and high cost of finance for the Company. The delay in realization of SI receivables has created financial challenges for the Company.

The Company will continue to monetize its real estate assets to help repay high-cost loans thereby reducing the cost of finance.

To assist the Company in meeting its financial obligations, Promoter Company has been voluntarily extending financial support to the Company from time to time in form of Corporate Guarantees and loans.

Due to the current pandemic situation, some of our plans concerning rationalization of our businesses and asset monetization may be delayed.

I would like to thank our shareholders for the support and faith that you have reposed in the company. I wish all of you safety and good health and hope that you come out of the pandemic stronger and better.

With Warm Regards, Nikhil Sinha

## Management Discussion & Analysis

#### Focus on reduction of outstanding debt and losses

In FY20 and FY 21, the strategy of the Company was to focus on the reduction of outstanding debt as well as curtailment of losses. Hence, during the financial year, we continued to focus on initiatives to reduce the company's debt and business losses by rationalizing our businesses. Accordingly, our Enterprise and Consumer Distribution businesses were gradually scaled down during the year. We also took a strategic decision to divest the entire shareholding in HCL Infotech Ltd to Novezo Consulting Pvt. Ltd, after certain carve-outs.

In FY20, we had reported revenue from continuing operations of ₹ 1815 Crore while in FY21 our revenues decreased to ₹ 353 Crore.

#### **Businesses Performance & Highlights**

For the purpose of financial reporting, the businesses have been arranged as per the following primary business categories:

Business Categories	Lines of Business
Enterprise Distribution	Third-Party Enterprise Products
Consumer Distribution	Third-Party Consumer Products
System Integration and Solutions	System Integration projects

The numbers provide a line of business-wise view based on management accounts and are not as per reported segments.

The Highlights for FY21 were:

- The Distribution business of the company consists of two business units:- Enterprise Distribution and Consumer Distribution. During the financial year, the distribution was gradually scaled down as recommended by the Board in January 2020 to limit future financial losses.
- FY21 Annual revenue of Enterprise Distribution was ₹ 58 Crore vs. ₹ 1,083 Crore in FY20.
- Consumer Distribution registered revenue of ₹ 159 Crore in FY21 vs. ₹ 573 Crore in FY20
- The System Integration and Solutions business had followed its well-charted path of execution of existing projects as well as the collection of receivables.
- During the financial year, a strategic decision to divest the entire shareholding in HCL Infotech Ltd to Novezo Consulting Pvt. Ltd, after certain carve-outs was taken.

#### **Distribution Business – Enterprise and Consumer Distribution**

In FY21, the Distribution business had reported a revenue of ₹ 217 Crore.

#### System Integration (SI) & Solutions Business

The SI and Solutions business reported revenue of ₹ 135 Crore in FY21 with a focus on project execution and gain outstanding receivables from customers.

Though the business was able to realize ₹ 185 Crore from customers, it continued to face delays in receivables. This delay was especially witnessed in customers from the power sector. The company has been constantly focusing on expediting the resolution of such issues by continuous engagement with the customer for the acceptance of project completions; however, progress has been very slow. It can be noted here that such delays have been the main reason for the high debt obligation and finance costs of the company.

During the year, ₹ 89 Crore has been provided for on account of such receivables.

#### **Other Updates:**

In keeping with our stated goal of minimizing losses and rationalizing the operations of the Company, the Board of Directors in its meeting held on February 10, 2021 had approved to sell the entire shareholding held by HCL Infosystems Limited in HCL Infotech Limited at "Net Asset Value" as on closing date, after acquiring the undertaking which shall comprise of the business relating to two specific projects through a business transfer agreement, certain other assets and liabilities through assignment deed and HCL Investments Pte., Singapore & it's step down subsidiary through a share purchase agreement. Unaudited net asset value of HCL Infotech Limited post this carve out as on 30 September 2020 is ₹ 147 Crores. The sale will be made to Novezo Consulting Pvt. Ltd based on the terms and conditions as specified in share purchase agreement dated February 10, 2021. One of the customers of our key defense project which is forming part of the deal has asked us to maintain status quo and further explore alternative options. We are in active discussion with the investor and the customer, and this transaction is expected to take longer time than expected initially with change in terms.

To reduce our debt obligations, we have decided to monetize company-owned properties in a phased manner. Several of our properties are not being fully utilized due to changes in the business of the Company.

Based on the detailed assessment performed by management which also included, wherever considered necessary, performing reconciliation with the parties and obtaining legal opinion, the Company has credited in Statement of Profit and Loss with ₹ 71.18 Crores, for the year ended March 31,2021 (2020: ₹ 24.85 Crores), on account of write back of certain old payables and provisions.

The Company is facing delays in receipts from the customers, primarily in the power sector, due to which the Company has charged ₹ 90.14 Crores, in the Statement of Profit and Loss, for the year ended March 31,2021 (2020: ₹ 110.54 Crores) on account of provision for certain receivable balances.

As of March 31, 2021, the company has accumulated losses and its net worth has been fully eroded, the company has incurred a net loss of ₹ 204.76 Crores the current year (March 31,2020: ₹ 318.44 Crores and the Company's current liabilities exceed edits current assets by ₹ 461.33 Crores March 31, 2020, Rs.344.88 Crores) as at March 31,2021. The losses are primarily as a result of delayed receipts on certain system integration contracts, certain historically low margin contracts, slowdown of distribution businesses and finance costs.

The management of the Company is pursuing strategies which include scale down of loss-making businesses like scaling down of the distribution business, sale of certain non-core properties and reduction in outstanding debts. To ensure the necessary financial support for its operations, the Board of Directors of HCL Corporation Private Limited has approved support (in the form of corporate guarantees and unsecured loans) to the Company upto ₹ 1,500 Crores. This had been approved by the shareholders of the Company, vide their resolution dated September 14, 2017. Considering the above support, the Company's management and the Board of Directors have reasonable expectation that the Company will be able to realize its assets and discharge its contractual obligations and liabilities as they fall due in the near future in the normal course of business. Accordingly, these financial results have been prepared on a going concern basis.

In the past, certain lossmaking businesses like PC Manufacturing, Financial Inclusion, Learning, and Enterprise & Consumer Distribution Business have been wound down. Other businesses such as Care (Consumer Services), Enterprise Services, and overseas businesses in Singapore & Middle East have been sold off. This was in addition to the sale of

unutilized surplus properties, whose proceeds were used to reduce outstanding loans.

Despite all these efforts to reduce debt & losses as well as the promoter's support from time to time, the Company continues to face very challenging financial conditions and a very tight fund position. As a consequence, the Company cannot invest in any new businesses or in expanding its current operations and consequently, the business of the Company will continue to contract for the foreseeable future.

#### COVID - 19 Impact

In evaluating the impact of COVID-19 on its ability to continue as a going concern and the possible impact on its financial position, the management has assessed the impact of macroeconomic conditions on its business and the carrying value of its major assets comprising of Property, Plant and Equipment (PPE), trade receivables and other balances recoverable. In this regard, the management has carefully considered the circumstances and risk exposures arising from the COVID-19 situation for developing the estimates based on available information in its assessment of the impact thereof on its financial reporting.

Based on the aforesaid assessment, management believes that the Group will continue as a going concern and will be able to meet all of its obligations as well as recover the carrying amount of its aforesaid assets as of March 31, 2021. The impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration and actual results may differ materially from these estimates. The Group will continue to monitor any material changes to future economic conditions and any significant impact of these changes would be recognized in the financial statements, as and when these material changes to economic conditions arise.

#### **Business Risks & Mitigation Measures**

The performance of our businesses can get affected by various risks posed by the external environment. Your Company continuously revisits the Enterprise Risk Management (ERM) framework and strengthens it to address various risks to our businesses. The risk management programme (ERM) involves risk identification, assessment and risk mitigation planning for strategic, operational and compliance-related risks across business units and functions. Periodic monitoring of risk is done and based on the overall risk performance mitigation action is refined and re-planned. #### **Internal Control Systems and their adequacy**

The Company has put in place controls commensurate with the size and nature of Operations. These have been designed to provide reasonable assurance with regards to recording and providing reliable financial and operational information, complying with applicable statutes, safeguarding assets from unauthorized use or losses, executing transactions with proper authorization and ensuring compliance with corporate policies.

The company has an internal audit function designed to review the adequacy of internal control checks in the system which covers all significant areas of the Company's Operations such as Accounting and Finance, Procurement, Business Operations, Statutory compliances, IT Processes, Safeguarding of Assets and their protection against unauthorized use, among others. The Internal Audit function performs the internal audit of the Company's activities based on the Internal audit plan, which is reviewed each year and approved by the Board Audit Committee. The Audit Committee reviews the reports submitted by internal auditors. Suggestions for improvements are considered and the Audit Committee follows up on corrective action. Disciplinary action is taken, wherever required, for non-compliance to Corporate policies and controls.

#### **Human Resource Development**

As of March 31, 2021, the employee strength of the Company stood at 788, while on April 1, 2020, it was 1127. Besides full-time employees, the Company also engaged with over 87 associates for various short-term projects across different timelines during the year. The reduction in headcount was due to the scaling down of the Distribution Business and organization Rightsizing.
