WTC Award of Honour For Outstanding Contribution to International Trade Services

Scaling a formidable mountain peak and conquering it is a tough task. It's a test of will, a test of skill, a test of prudence and a test of strength. However, when a seasoned mountaineer stands before this challenge, he looks it in the eye and faces it with confidence.

Just as a mountaineer contends with the vagaries of the weather in hostile conditions, the banking industry faced unprecedented headwinds last year and this environment, though improving, remains demanding. At HDFC Bank, we draw inspiration from a mountaineer's grit and spirit while tackling challenges in the evolving financial landscape.

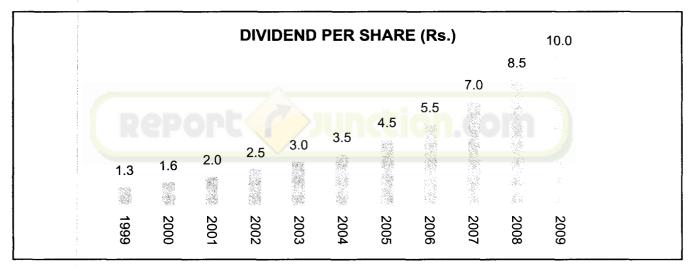

As the Indian banking industry undergoes a transformation due to rapidly changing economic conditions, both global and domestic, we at HDFC Bank continue to build and consolidate our well-diversified portfolio. With a strong foundation of customer and product franchises developed over the last 14 years, we have continued to grow from strength to strength. Our growth model combines new customer acquisition through multiple channels with a strong focus on penetrating our existing customer base, and achieving a healthy risk-reward balance with emphasis on a strong risk management culture.

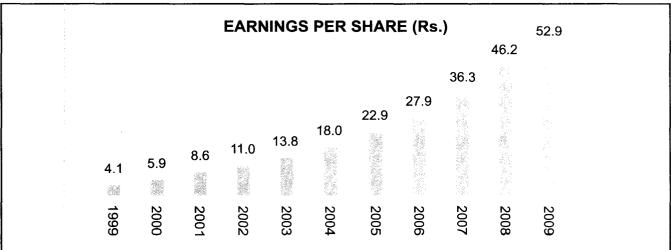

Our organic growth and the merger with Centurion Bank of Punjab has augmented our branch network, enabling us to expand our footprint while bringing a wide range of products and services to a growing number of semi-urban and rural markets.

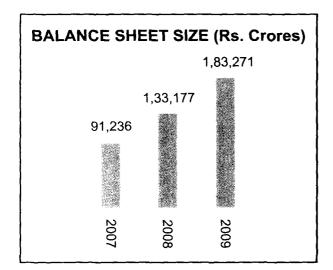

It is our enterprising yet prudent approach that has been at the core of our growth strategy. We have taken measured steps and drawn on our experience while moving ahead into leadership positions across various businesses. We hope to continue to fully leverage opportunities in our retail, wholesale and treasury business segments. We recognise that the challenges could be enormous, but at HDFC Bank, we believe in looking up to each summit with the will to get there.
