Forward-looking statements

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take investment decisions. This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in assumptions. The achievements of results are subject to risks, uncertainties, and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated, or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Dynamism is often a phenomenon, which lies at the intersection of cutting-edge technology and imagination. At Hero MotoCorp, we bring these two together, to create an organisation that has dynamism at its core. We are doing this to align ourselves to evolving customer aspirations in a highly dynamic socio-economic landscape.

But how does this dynamism reflect in the way we strategise in the present and shape our future?

We are launching new products and focusing on multiple product refreshes.

We are focusing on the next big idea to accelerate our pace of innovation.

We are collaborating with best-in-class technology partners to take our technology leadership to the next level.

That's not all, we are reinforcing our customer-connect programmes to understand better their everyday experiences with our products and services.

The horizon for Hero is truly expanding across continents of Asia, Africa and South America, where our ideas are setting into motion amazing customer experiences and creating value for all stakeholders.

THAT'S HOW WE INFUSE DYNAMISM IN ALL WE DO.

EVERY DAY.

DECODING DYNAMISM

Being the world's largest manufacturer of two-wheelers is both an honour and a responsibility.

It means that we have to work harder, innovate faster and cater to a wider cross-section of customers globally. To sustain and grow our leadership further. We do this by investing in higher capacities, advanced technologies and greater marketing efforts.

VISION

The story of Hero Honda began with a simple vision - the vision of a mobile and an empowered India, powered by its two-wheelers. Hero MotoCorp Ltd., company's new identity, reflects its commitment towards providing world class mobility solutions with renewed focus on expanding company's footprint in the global arena.

MISSION

Hero MotoCorp's mission is to become a global enterprise fulfilling its customers' needs and aspirations for mobility, setting benchmarks in technology, styling and quality so that it converts its customers into its brand advocates. The Company will provide an engaging environment for its people to perform to their true potential. It will continue its focus on value creation and enduring relationships with its partners.

STRATEGY

Hero MotoCorp's key strategies are to build a robust product portfolio across categories, explore growth opportunities globally, continuously improve its operational efficiency, aggressively expand its reach to customers, continue to invest in brand building activities and ensure customer and shareholder delight.
