Revolutionary Ideas for the Building Industry

THE NO. 1 ROOF UNDER THE SKY

HYDERABAD INDUSTRIES LIMITED

Building Products. For building the future

In a world where evolving technology is building better lifestyles for people, it goes without saying that building products need to keep pace to support them. The reason why, at Hyderabad Industries Limited, the focus is always on providing innovative building solutions that are not just in line with the changing times, but cost-effective too.

Be it low-cost roofing or partitions and panelling, false ceilings or mezzanine flooring, high quality building blocks or India's very first thermal roofing that keeps interiors cool, Hyderabad Industries Limited offers a world of solutions that are sheer value for money.

A C.K. Birla Group Company, Hyderabad Industries Limited is committed to offering customers a range of innovative solutions that meet almost every need of the building industry:

India's number **1** choice for roofing, for more than 50 years now, these AC roofing sheets find ideal application in low cost housing, industries, commercial establishments and various other public utilities.

A revolutionary roofing solution, these NT roofing sheets are non-asbestos but offer all the inherent advantages of asbestos. Making this possible is a balanced mixture of synthetic fibre that goes into making this roofing product.

This is a versatile board, which is possibly the best building material for a range of applications for interiors. It has the advantage of being a superior and an economical alternative to ply boards.

This is a high-pressure, steam-cured (autoclaved) flat sheet that is ideal for partitions, false-ceilings, table-tops, wall-panelling in cold storage rooms and outdoor switchboard panels, to name a few.

These are unique thermal roofing blocks that ensure comfortable room temperatures even in the hottest of summers.

These are sleek, lightweight wall panels that offer excellent strength combined with fire and moisture resistance. Very easy to install, these panels are an excellent alternative to conventional brick walls, particle boards, plywood and plaster boards.

These are autoclaved, aerated light-weight blocks, which make them an excellent alternative to conventional clay bricks.

This is a hydrated, calcium-silicate based thermal insulation solution, with high compressive strength and low shrinkage. All of which make it ideal for use in the cement and fertilizer industries, power and steel plants, furnaces and various other applications.

PERFORMANCE

The Sale and Production of Fibre Cement Sheets during the year 2007-08 were as follows:

Year	Sales M.T.	Increase over previous year	Production M.T.	Increase over previous year
2007-08	650330	19%	660180	11%
2006-07	544721	(1%)	594465	12%

During the year under review the national demand for the Fibre Cement Sheets has grown by about 15% over the previous year. The Fibre Cement Sheet Industry has faced challenge on account of over supply position and higher input cost. This has led to the pressure on margins on Fibre Cement Sheets. The Fibre Cement Sheet Industry is expected to grow about 15% during the year. Despite lower margins, the Fibre Cement Division continued its positive contribution to the Company.

The market growth for Autoclaved Aerated Concrete Blocks (AAC Blocks) and Aerocon Panels was satisfactory during the year. Due to its inherent advantages of high quality, strength, light weight and thermal insulation properties coupled with technical support, guidance, cost-benefit analysis of usage of these products, the Company attracted various customers and received encouraging response from the market during the year. These products are gaining customer confidence due to their advantages against other substitutes.

The Sale and Production of AAC Blocks during the year 2007-08 were as follows:

Year	Sales Cu.M.	Increase over previous year	Production Cu.M.	Increase over previous year
2007-08	79421	10%	81157	11%
2006-07	72514	(6%)	73135	9%

The Sale and Production of Aerocon Panels during the year 2007-08 were as follows:

Year	Sales M.T.	Increase over previous year	Production M.T.	Increase over previous year
2007-08	17140	11%	18450	18%
2006-07	15468	5%	15666	(8%)

Production and Sales of Thermal Insulation products have increased by 16% and 9% respectively over the previous year. In view of increased demand, the Company is in the process of increasing its manufacturing capacity to cater to the growing demand.

The Cement Grinding Unit (Non-Core activity) was sold during the year under review. The Company has during the year decided to discontinue the jointing business (Non-Core activity).

NEW PROJECTS

During the year under review the Company has set up a new Fibre Cement Sheet Plant at Somnathpur Industrial Estate, Balasore, in the state of Orissa with a capacity of 125000 MT per annum. The requisite clearances from Ministry of Environment and Forests and State Pollution Control Boards have been obtained and the commercial production is expected to start shortly.

The Company is setting-up a new Fibre Cement Sheet plant at Vijayawada in the existing location with a capacity of 125000 MT per annum which is expected to commence production in the last quarter of the financial year 2008-09. The Company is also setting-up an AAC Blocks Plant in the western part of the country as the demand for this product is expected to rise due to its inherent advantage of light weight, thermal insulation and fast construction.

During the year, the Company is expanding its manufacturing capacity of Thermal Insulation Products from 3500 MT to 6000 MT per annum, by installing an additional line at its Dharuhera factory to cater to the growing demand in the market for such products.
