Enduring Value - CK Birla Group

The CK Birla Group is a growing US \$2.4 billion conglomerate that has a history of enduring relationships with renowned global companies. The Group's operations are spread across six industry sectors: Automotive, Technology, Home and Building, Infrastructure, Healthcare and Education. Since its inception in 1862 by Seth Shiv Narain Birla, the group has maintained a consistent track record of creating value for all its stakeholders including customers, partners, people and communities.

With over

**30,000
employees,**

various manufacturing facilities, service delivery locations and numerous patents and awards, the Group's businesses are present across five continents with a customer base that includes some of the world's best-known companies and has partnerships with several global leaders.

Today, the Group is poised to grow through a transformation exercise that will significantly increase the size of the business, with technology and talent driving the expansion. The Group's vision is to create value in tune with the rapidly changing needs of customers, partners and communities in the twenty-first century.

Successfully create value for all
our stakeholders

Presence in **80+ countries** globally

23 state-of-the-art manufacturing units enable us to produce high quality and innovative products

Managing Covid-19

The outbreak of coronavirus continues to wreak havoc around the world, and it has affected human lives in unfathomable ways. To prevent its spread, a countrywide lockdown was imposed in India in mid March 2020, resulting in a complete halt of activities across sectors. Innumerable challenges on movement of goods in metro cities with uncertainties in the revival of real estate sector and our other focus areas continues to loom. The challenges owing to migration of workers and non-availability of workmen continues to daunt as we enter the new normal.

Our Focus Areas

In these unprecedented circumstances HIL is rethinking and re-evaluating the new normal

- Formation of 10 work streams with clear charters towards a common goal of protecting profitability and people's health
- Challenging each cost line item – ZERO based approach
- Converting a crisis into an opportunity to create a lean and efficient business model
- Enhancing a customer centric business model by effectively leveraging digital media
- Continuously add value to society in the time of distress - Distribution of sanitizers made inhouse as per WHO guidelines to our wider community.
- Maximizing operational efficiencies
- A systematic day zero plan helped us positively enhance business operations.
- Reviewing external risks (associated with the business and formulation of mitigation plans)
- Working with Parador to explore e-business, government supports and banking connects

Strategy to Convert Crisis to Opportunity

We are undertaking following steps to convert the global pandemic into an opportunity for enhancing our efficiency

- Prudent cash-flow management (cross border) to strengthen our sustainability during this unprecedented time
- Modified credit terms in discussion with customers and suppliers to optimize working capital
- Improving connect and cohesion through digital platforms to make working from home more impactful
- Enhancing digital connectivity through lead generation and lead management portal
- Grass root district planning and mapping of secondary and tertiary showing promising results in these testing times
- Utilize digital as an efficient mode to improve transparency and effectiveness while ensuring cost efficiencies.
- In Parador, we modified our sales approach through DIY and E-business where we safely provide deliveries to customers and the customers took responsibility of the installations. This worked well for Parador and helped maintain its momentum.

Brands

A leading international brand for wooden flooring

Products

- Engineered Wood Flooring
- Laminate Flooring
- Resilient Floor Covering / Vinyl Flooring
- Skirting & Accessories

15

Cumulative capacity per annum (in M SQM)

Brand Power

Over the last two years we have leveraged our association with Chennai Super Kings and achieved the most out of the partnership. This year, we shifted our focus by engaging with last mile channel partners, leveraging BTL advertising and digital space for all our brands.

Our Birla HIL Pipes and fittings and Birla HIL Putty brands leveraged the following BTL advertising:

- Branding through Long Vehicle and Delivery Vehicle to increase our brand visibility across the country.
- Changed the colour palate of our signage to bi-colour with emphasis on larger

logos to increase mass engagement.

- Leveraged social media platform to connect with our customers, showcase our products and interact with them through schemes and contests.

Our Birla Aerocon brand leveraged its connections with channel and end customers

through participation in various events and exhibitions, such as Alleppey Boat Race, CREDAI Home Expo and BNI Trends 2020 Exhibition.

Parador conducted trainings and workshops for their dealers at Delhi, Mumbai and Bangalore and the brand participated in renowned exhibitions such as Elle Décor, D code, India Design 2020 and LivSpace which benefitted

the brand in terms of visibility, exposure to wide audience and familiarity with its range of offerings. Parador has also utilized Digital media and associated with premium magazines such as Elle Décor, Vistara In-flight magazine and Surface Reporter for its brand building activities.

Leading with Innovation

At HIL, innovation is underpinned in our value creation model, constantly focusing on meeting customer expectations and needs. Creating value for customers is a prerequisite at HIL. As a result, innovation goes far beyond our products and includes various services and processes that enhance productivity and efficiency. Our ability to offer a diverse range of innovative products helps us to create a differentiating experience, enabling us to sustain and expand our market leadership while maintaining a high level of performance and operational excellence.

Innovation at Parador

Parador StudioConcept

The new Parador StudioConcept allows customers to discover a variety of products in an inspiring atmosphere. It gives an opportunity to address the requirements of a wider

customer base, offering a range of modules which can be easily adapted according to individual requirements of space, flexibility and productivity.

The Parador StudioConcept is also equipped with a digital info point - an interactive new-age technology. It provides a simple, intuitive tool that helps the buyer as well as the seller during the purchase process by providing relevant information

about the product, including its price. It also enables the customer to compare products. All samples at the point of sale (POS) are equipped with QR codes to provide quick support, informing about product or process updates.
