Item No. 8:

'People are the greatest assets of any business/company' - however cliched, this statement will never lose its relevance or its meaning The growth and development of any enterprise becomes a reality thanks to the contribution of its people Employees are 'business partners' in the true sense of the word. With the objectives of securing greater employee participation, motivating the employees to contribute to the growth and profitability of the Company; enabling them to participate in the long-term growth and financial success of the organisation, and with a common objective of maximizing the shareholder value, it is proposed to grant employee stock options to

employees through one or more employee stock option schemes. This would enable the Company to reward past loyalty and performance and to develop a greater sense of ownership with the organisation.

The main features of the employee stock option Schemes are as under:

1. Total number of options to be granted:

Options convertible into such number of equity shares not exceeding 5 % of the paid-up capital of the Company at any point in time (including those options granted to the employees of the Company's subsidiaries) will be available for being granted to eligible employees of the Company under one or more employee stock option Schemes. Each option (after it is vested) will be exercisable for one Equity share of Rs. 10 each fully paid-up.

Vested options that lapse due to non-exercise or unvested options that get cancelled due to resignation of the employees or otherwise would be available for being re-granted at a future date.

2. Identification of classes of employees entitled to participate in the employee stock option schemes:

All permanent employees of the company including Directors (excluding promoters and any Director who holds either by himself or through his relative, or through any body corporate, directly or indirectly, more than 10% of the outstanding Equity shares of the Company), whether working in India or abroad, as may be decided by the Board, from time to time, would be entitled to participate in the employee stock option Schemes.

Employees may be granted Stock Options based on performance and such other criteria as the Board may, in its absolute discretion decide. The options granted to an employee will not be transferable to any person and shall not be pledged, hypothecated, mortgaged or otherwise alienated in any manner.

3. Requirements of vesting and period of vesting:

The Options granted shall vest so long as the employee continues to be in the employment of the Company. Vesting of the options shall take place over a maximum period of 5 years with a minimum vesting period of 1 year from the date of grant. The Board would determine the exact proportion and period in which the options would vest.

The Board may, in its discretion, lay down certain performance metrics on the achievement of which the granted options would vest, the detailed terms and conditions relating to such performance-based vesting, and the proportion in which options granted under the Schemes would vest (subject to the minimum vesting period as specified above).

4. Exercise Price:

The exercise price shall not be less than the face value per share per option.

5. Exercise Period and the process of Exercise:

The Exercise period would commence from the date of vesting and will expire on completion of five years from the date of vesting of options.

The options will be exercisable by the Employees by a written application to the Company to exercise the options in such manner, and on execution of such documents, as may be prescribed by the Board from time to time. The options will lapse if not exercised within the specified exercise period.

6. Appraisal Process for determining the eligibility of the employees to ESOP:

The appraisal process for determining the eligibility of the employee will be specified by the Board, and will be based on criteria such as seniority of employee, length of service, performance record, merit of the employee, future potential contribution by the employee and/or such other criteria that may be determined by the Board at its sole discretion.

7. Maximum number of options to be issued per employee and in aggregate:

The number of options that may be granted to employees under the Scheme shall be determined by the Compensation Committee from time to time. However, grant of options to identified employees, during any one year shall not be equal to or exceeding 1% of the issued capital (excluding outstanding warrants and conversions) of the Company at the time of grant of options.

8. Disclosure and Accounting Policies:

The Company shall comply with the disclosure and the accounting policies prescribed by concerned Authorities.

9. Method of option valuation

To calculate the stock-based compensation, the Company shall use the Fair Value method for valuation of the options granted.

If the Company calculates the employee compensation cost using intrinsic value of the stock options, the difference between the employee compensation cost that shall have been recognized if it had used the fair value of the options, shall be disclosed in the Directors' Report and also the impact of this difference on profits and on EPS of the Company shall also be disclosed in the Directors' Report.

As the employee stock option Schemes provide for issue of shares to be offered to persons other than existing shareholders of the Company, consent of the members is sought pursuant to Section 81(1A) of the Companies Act, 1956

None of the Directors of the Company are in any way, concerned or interested in the Resolution, except to the extent of the securities that may be offered to them under the Scheme.

Item No. 9:

Domestic and international demands for glass containers having increased substantially, your Directors feel there is a need to pay heed to market forces and embark upon a expansion through the vehicle of the proposed 100% subsidiary. The proposed expansion, which will be implemented in stages, consists of:

- (i) Decoration of bottles,
- (ii) pet bottle manufacture,
- (iii) frosting and printing of bottles, and
- (iv) low density film extrusion.

This expansion should meet the emerging needs for bottle containers used in the liquor and cosmetics industries. and in due time should fetch a good return on the Company's investment. This would not only benefit the Company but would also provide value addition for the products to the customers of the Company.

Section 372A of the Companies Act, 1956, mandates that the aggregate of the Company's loans and investments, guarantees and securities provided shall not exceed 60% of its paid-up capital and free reserves or 100% of its free reserves, whichever is more, unless it is previously authorised by the members through a Special Resolution, hence the Special Resolution at item 9 of the Notice

The proposed investment will be made after obtaining the approval of members and other approvals, if any, required Your Directors commend the passing of the Resolution which is in the interest of the Company and its members

None of the Directors is concerned or interested in the passing of the Resolution at item 9 except to the extent that they may also be made Directors of the proposed fully owned subsidiary.
