Further, the details of investments in WOS are given in Notes to the financial statements forming part of Annual Report.

**10] MANAGEMENT DISCUSSION AND ANALYSIS:**

**i] INDUSTRY STRUCTURE & DEVELOPMENTS:**

The Company is engaged in the business of manufacturing glass containers for various segments of industry, mainly alcoholic and non-alcoholic beverages, food, personal care and homecare. While the alcoholic beverage industry remains the largest customer segment, the company continues to invest in product innovation, talent and leadership resulting in enhanced capabilities to diversify into other segments and geographies. As a result of this, the Company has been able to make good progress in acquiring new customers/brands in other segments and new geographies.

**ii] OPPORTUNITIES AND THREATS:**

The Indian economy grew at 7.2% in financial year ["FY"] 2022-23. The Economic outlook by global agencies and the World Bank, have kept India's growth forecast at around 6%

The RBI too estimates growth to be 6.5% in the current fiscal year.

According to forecasts by several agencies, India is expected to be the fastest growing major economy for years to come.

**Challenges:**

The International Monetary Fund [IMF] has cautioned that inflation could remain higher for longer, requiring more monetary policy tightening. India's economy will be affected to an extent by slowing global trade due to subdued global demand, elevated inflation and high interest rates. Lower labour productivity too will be impediment to the Government's "Make in India" scheme as it will affect country's competitiveness of India made goods.

However, typical impact of global slowdown, caused by trade slowdown, is cushioned by the relatively high percentage of the economy that comes from domestic consumption. The inflation and rate hike cycles have peaked out and Reserve Bank of India is expected to cut rates from next year.

**iii] SEGMENT WISE OR PRODUCT WISE PERFORMANCE:**

Your Company's business activity falls within a single primary business segment viz. Glass bottles / containers. As such there are no separate reporting segments.

**iv] OUTLOOK:**

India, currently, is the World's fifth largest economy and is expected to be the World's third largest economy by FY 2027-28. The 'Made in India' initiative is gaining momentum. Several major multinational companies have announced plans to set up operations in India to diversify their supply chain under China+1 policy.

Government of India, is trying to internationalise the rupee by promoting rupee based foreign trade. This will strengthen the rupee, which will result development of financial system and improved economic performance. The Government of India is also continuing its commitment of additional investments in infrastructure, road and railways - which will further supplement the GDP growth prospects.

**Haldyn's highlight and outlook:**

During FY 2023-24, we are poised to implement our strategy for "growth with diversification" by expanding one furnace for commercial quality glass and transforming our other furnace for premium quality glass. We will modernize both furnaces with the state of the art technology to further enhance the quality of our offering. To facilitate revenues from North American markets, we have also setup our wholly owned subsidiary in the US - which makes us excited about our future prospects.

**v] RISKS AND CONCERNS:**

Global economy is facing major down side risks from further escalation of ongoing Russian war. Continued tension between China and Taiwan- could further impede global economic recovery.

Faster than expected monetary tightening in the developed economies, slowing growth in the US, China and the euro area has major consequences for global outlook.

Competitive environment and the current surplus capacity in the glass industry will continue to pose some challenges. We recognize that we face risks from increased competition. Our competitors are cognizant of the importance of product development and we see some of them increasing their capacities. The Company also faces the risk of forex volatility and fuel price fluctuations due to increasing crude / gas rates in the International market. .

However, management is hopeful that the resilience of the Indian economy will prevail. We remain confident to navigate these challenges and take advantage of opportunities that lie ahead through innovation and transformation.

**vi] INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:**

The Company's internal control systems are commensurate with the nature of its business and the size and complexity of its operations. Internal controls at the Plant, Corporate Office and key areas of business are regularly tested and certified by Internal Auditors. Important internal audit observations and follow up actions thereon are reported to the Audit Committee which also reviews the adequacy and effectiveness of the Company's internal control environment and monitors the implementation of audit recommendations including those relating to strengthening of the Company's risk management policies and system.

**vii] DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE:**

During the year under review, we undertook several initiatives to improve productivity as well as the quality of our products, which were well appreciated by our customers. However, we also encountered steep increase in prices of several inputs, but your company was able to successfully pass on these increases to the customers. Consequently, we achieved growth of 49% in revenue and 81% growth in profit after tax.

**viii] MATERIAL DEVELOPMENTS IN HUMAN RESOURCE / INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF EMPLOYEES EMPLOYED:**

Your Directors would like to place on record their appreciation of the commitment and efficient services rendered by all employees of the Company. The industrial relations continued to remain cordial during the year. Employees being a key factor, the Company encourages employees for continuous learning by conducting periodical training programmes throughout the year.

**ix] KEY FINANCIAL RATIOS:**
