## MANAGEMENT DISCUSSION AND ANALYSIS

### a. Industry Structure and Developments :

The scenario of the Polymer industry and economy in general have undergone drastic changes during the past few years, due to introduction of WTO and free trade development with various countries of the World. The Industry is now exposed to global competition with globalization policy of the government. The Industry is now stabilized, due to stable Crude price in the International market. However, the technology has changed drastically over last few years. At the same time, cost of power and steam is very high. More than that, due to Global competition and lower price realization, margins are reducing day by day. The future of this industry appears very glumly, specially for small players, considering crude and inflation factor.

### b. Opportunities and Threats :

The Polymer industry is subject to competition among various segments of manufactures within the country and from manufactures of outside the country. The threats of competition is very high in the products which your company was manufacturing, in past.

### c. Segment wise Performance :

As such, the Company has no different segments, as its total involvement is in Polymer only. The Company's plant is closed. There is no production/turnover during the year.

### d. Recent Trend and Future Outlook :

The Polymer industry in India is facing server competition, as every big Companies and Government Organisation, specially Diaries have started their own plant with latest technology. Due to this, the Company is unable to generate the demand and as the technology and machinery of the Company is old, it is not viable to run the plant. The Management intention is to sell it out/lease the whole plant or Administrative office, which to clear all the outstanding unsecured debt of the Company.

### e. Risks and Concerns :

Like any other industry, Polymer industry is also exposed to risk of competition, government policies, natural factor etc. As the Company is neither importing nor exporting raw materials/finished product, the Company has no risk on account of Exchange Rate fluctuations. However, as the manufacturing plant of the Company is closed, there is not much risk, except the realisable value of the plant at the time of sale will be lower day by day, due to obsolete technology.

### f. Internal Control Systems and their Adequacy :

The Company has adequate systems of Internal Controls commensurate with its size and operations to ensure orderly and efficient conduct of business. These controls ensure safeguarding of assets, reduction and detection of fraud and error, adequacy and completeness of the accounting records and timely preparation of reliable financial information. However, as the manufacturing facility is closed, most of the things will not apply to the Company.

### g. Financial Performance with respect to Operational Performance :

The financial performance of the Company for the year 2009-10 is described in the Directors' Report under the head 'Financial Results' and 'Review of Operation'.

### h. Material Developments in Human Resources and Industrial Relations Front :

The Company has continued to give special attention to Human Resources/Industrial Relations development. Industrial relations remained cordial throughout the year. However, as the manufacturing facility is closed, most of the things will not apply to the Company.

### i. Cautionary Statement :

Statement in this Management Discussion and Analysis Report, describing the Company's objectives, estimates and expectations may constitute 'Forward Looking Statements' within the meaning of applicable laws or regulations. Actual things may differ materially from those either expressed or implied.

## REPORT ON CORPORATE GOVERNANCE

The Securities and Exchange Board of India (SEBI) ushered in a formal code of corporate governance practices by introducing the Clause 49 in the listing agreement with the Stock Exchanges. Clause 49 lays down several corporate governance practices that listed companies are required to adopt. Most of the practices laid down in Clause 49 require mandatory compliance and there are some more provisions, which are voluntary for adoption. This report sets out the compliance status of the Company during the financial year 2009-10.

### Philosophy on Code of Corporate Governance

The Philosophy on Corporate Governance aims at attainment of the highest levels of transparency, accountability and equity in the functioning of the Company vis-a-vis interactions with employees, shareholders, creditors, depositors and customers. The objective of the Company is not only to meet the statutory requirements of the code but also go well beyond it by instituting such systems and procedures as are in accordance with the latest global trend of making management completely transparent and institutionally sound.

### Board of Directors

The Company's board comprises of 4 Directors with a mix of Non-executive and promoter/ independent directors. The composition of Board complies with the requirements of the Corporate Governance code with more than 50% of the directors being non-executive directors as well as independent directors. The Chairman of the Board is also Non-Executive Director.

Five Board meetings were held during the financial year 2009-2010. The dates on which Board Meetings held are 4th May, 2009, 27th June, 2009, 29th July, 2009, 30th October 2009 and 30th January 2010. The 18th Annual General Meeting was held on 30th September 2009.
