Explanation to Auditors' Remarks

a) Point No.4 of the Auditors' Report

As more fully described in Note 25(a) to the Financial Statements, certain income tax matters in respect of the financial year ended March 31, 1996 (financial estimate by the management of Rs. 150 Lakhs) are being contested by the Company and the matter is pending with the High Court of Judicature, Madras. Pending a final resolution of the uncertainties in this connection, no provision towards tax and other consequential adjustment relating to this matter, if any, have been considered in the financial statements. Audit report issued on the financial statements for the year ended March 31, 2011 was also qualified in respect of this matter.

The Management has consulted and obtained expert legal advice on this issue and based on the same, believes that it has a strong case and hence no provision and consequential adjustments, if any, for such disputed amount have been considered in the financial statements.

b) Point No. (ix) (a) of Annexure to the Auditors' Report

Undisputed statutory dues including provident fund, investor education and protection fund, employees' state insurance, income-tax, sales-tax, wealth-tax, service tax, customs duty, excise duty, cess and other material statutory dues have generally been regularly deposited with the appropriate authorities *though there has been a slight delay in a few cases in remittances relating to provident fund.*

The Company is regular in remittance of provident fund dues. However, in few cases there were some technical delays in remittances where even though cheques relating to remittance were made before the due date, it got delayed due to the time taken for clearance of the cheques owing to continuous intervening holidays. We will ensure that in future such payments are cleared and credited to the provident fund accounts well within the due date.

c) Point No. (xvii) of Annexure to the Auditors' Report

Having regard to the Company's explanation as regards the operation of a centralized treasury function and more fully described in note 25(k) of the financial statements, *we report that the Company has used funds raised on short term basis from banks and others to purchase certain fixed assets aggregating Rs. 6,230.24 Lakhs.*

The Company has a centralised treasury function where all the term loans and other borrowings in addition to the cash generated from operations are pooled through common bank accounts to optimally use funds and reduce the interest cost to the Company. The Company obtains loans from banks, which inherently permit the loans to be used interchangeably for long term and short term purposes.

During the year, the Company has raised long term loan for Rs.7,900 Lakhs from ICICI Bank Ltd. to narrow down the short term and long term mismatch. Most of the short term loans with interest advantage have been in the nature of being rolled over long term. As the Company generates better profits, the long term – short term mismatch will come down substantially.

14. Industrial Relations

Industrial relations in all the locations of your Company remained cordial and peaceful throughout the year.

15. Particulars of employees
