Chairman's Communique

Dear Shareholders,

I hereby present the Annual Report for the year 2007-2008.

The real estate industry in India has experienced major growth in the previous year, with residential sector seeing the maximum rise. The reasons are many, including growing number of nuclear families, increase in income, and easy availability of loans. On the other hand, this year under report proved to be a challenging one for the economy in general and a few sectors like real estate in particular. The world is in throes of an economic slowdown, yet we are happy to see India swim against the tide and remain one of the few growth regions in the world. This phase presents both challenges and opportunities, and I am sure that, we will overcome these difficulties and successfully tackle the challenges.

You are aware, the Country's economy is going through a difficult phase & the real estate industry is also experiencing a correction. I, however, envisage this as a mere temporary blip. I am absolutely confident that with so many positive growth factors in real estate acting in favour, the emphasis on infrastructure development activity will remain strong.

Your Company has, in the short term, focused more on execution of projects rather than building land bank. The Residential complex project of your Company at Pune is on schedule and steps have been initiated for completion well within the schedule. Your company has decided not to avail the Term Loan sanctioned by Vijaya bank, for the project near Aambey Valley after taking into consideration the economic slowdown and uncertain economic conditions and have withheld the project development of Hazoor Hill Grand, till the economic conditions stabilise in the country.

All over the world against a backdrop of the economic slowdown, shareholders globally are worried about the return on their investments. They are more concerned about issues like governance and transparency. It is during such tough times when companies with a culture of accountability and transparency are valued. We at Hazoor have always focused on processes and systems to ensure accountability, transparency and quality. Your Company has successfully set up new processes and systems in various departments across the company to create a more efficient, productive and responsible organization. While the country's economy was on a strong growth path in the previous year, inflation is threatening to slow down the overall growth rate in the year under report. A tighter monetary policy and higher interest rates present a challenge to India Inc., including the realty sector, to complete projects within stipulated costs and time.

I salute our investors for their support and trust reposed in us. We celebrate our team, who always manages to exceed all expectations. We honour our commitment to deliver quality real estate and continue to achieve higher levels of excellence for creating value for all stakeholders.

With warm Regards,

Yuvraj Karan
Non Executive Chairman

Annexure 'I' to the Director's Report Management Discussion & Analysis

The management of Hazoor Multi Projects Limited presents the analysis of the company for the year 2007-08 and its outlook for the future. This outlook is based on an assessment of the current business environment. It may vary due to future economy and other developments both in India and Abroad.

Economic Overview

The India growth story remained intact with GDP expanding by 9 % for the third year in a row upto 31st March, 2008. However, rising inflation triggered by sharp increase in food and fuel prices, has emerged as a serious macroeconomic challenge.

Industry Overview

In the current scenario, the inflationary pressures have led to higher interest rates and difficult borrowing conditions. The liquidity crunch is expected to adversely affect the real estate industry as funding sources may taper off. On the one hand, high interest rates have hurt off take, on the other hand, input prices have pushed up costs.

Residential Sector:

The residential sector, the backbone of Indian Real Estate Sector has grown by leaps and bounds in the previous years both in terms of volume, geographic spread and quality in response to growing end users and investment demand. The increased rate of interest on Home Loans have adversely impacted the demand in the housing sector.

Commercial offices:

The genesis of transformation of the real estate sector lay in the gradual positioning of India as a preferred destination for outsourcing. The boom especially in the IT/ITES Sector, led to a quantum increase in the year-on-year requirement for office space in the previous year. There is major slow down in the retail sector and Retails chains are being closed down.

Special Economic Zones:

Special Economic Zones (SEZs) are specifically delineated duty free enclaves deemed to be foreign territories for purposes of Indian Custom controls, duties and tariffs. SEZs by virtue of their size, are expected to be a significant new source of real estate demand in future. Due to complicated statutory clearances and sanction procedures SEZs have not yet taken off in the country.

Operation Performance:

During the year, the Company with its unique business model is changed and focused on Residential, real estate development which offers opportunities for marketing Budget Apartment at a affordable price. The Company currently continuously operates in the Residential, segments of the Real Estate business.

Other Opportunities:

All the aforesaid business initiatives would enable the Company to enhance long term shareholder value. Steps have also been taken to strengthen the organization to enable it to cope with the challenges ahead. Tools of innovation are employed for any new project / marketing initiative, the purpose being to constantly stay ahead in terms of ideas. The Company has plans to enter into strategic joint venture arrangements with other real estate developers on a profit sharing basis. Collaborating strategically with other firms reduces the capital investment requirement and helps leverage development capabilities. It also allows the Company to benefit from an enhanced pool of construction and marketing expertise and experience, and facilitates expansion into additional geographies and business lines. All these business initiatives are expected over a period of time to create a robust organization where growth is a way of life.
