ANNEXURES TO THE DIRECTORS' REPORT ANNEXURE-I

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Industry Structure and developments

The Company is engaged in the business of automotive lighting and signaling equipment. The automobile sector has grown over a period of time. The market of lighting has gone a sea change in the last few years.

The Company complies with various standards of lighting. In addition to the business in domestic market, the Company is further looking for the business in exports. Hella being a reputed trade name in the automotive lighting, the import trading area is organized. The Company is looking for additional original equipment manufacturers (OEMs) and dealers to sell its new generation lighting and signaling equipment.

2. Opportunities and Threats

There is a growth in the automotive sector in the last year. New model in various segment have been introduced in the last few years. The Company has a strong "Hella" brand with high quality products to offer to the growing market. Strong parental support from Hella KGaA Hueck & Co. both financially and technically, international brand, innovative and environment friendly products continue to remain the main strengths of the Company.

The stiff competition in the domestic as well as international market, rigid norms and the competition from various copy product manufacturers may pose a short term threat to the Company. However, there is a need to import new technology for new generation lights.

However, intense competition from existing as well as new players with consistent pressure on realization, need for continued investment in product upgradation, new product introduction and delayed entry in plastic moulded lighting products are the main areas of concern for the management.

3. Segment wise performance

The Company operates in a single business segment. Within this segment there has been an increase in the sales of head lamps and sundry lamps.
