Himatsingka Seide Limited

Directors' Report

Your Directors have pleasure in presenting their Thirteenth Annual Report together with the Audited Accounts of the Company, for the year ended 31st March, 1998.

Year in Retrospect

During the year 1997-98, the export market turned sluggish due to recessionary conditions in Europe and the currency turmoil in South East Asia. India's export growth rate declined to 2.6% p.a. during the year from 20% p.a. in the recent past. The strong Rupee against Deutsche Mark during most part of the year also resulted in lower realisation. However, in the second half, there had been a marked improvement in demand for our products. Depreciation of the Rupee during this period has also contributed towards higher realisation. The Company was able to achieve a turnover of Rs. 59.49 crores which is marginally higher than Rs. 58.74 crores in the previous year. The Net Profit after tax is higher at Rs. 24.63 crores as compared to Rs. 22.55 crores of the previous year. The provision for taxation is relatively lower at Rs. 0.42 crores as compared to Rs. 3.37 crores in the previous year, due to exemption from Minimum Alternative Tax on export profits with effect from 01.04.97.

It may be noted that the Company has disposed off the entire investment in shares/securities except investments in Subsidiary Company.

Financial Results

	1997-98	(Rs. Crores) 1996-97
Turnover	59.49	58.74
Other Income	3.63	3.21

Interest	1.54	0.82
Profit before Depreciation	29.82	30.66
Depreciation	4.77	4.74
Profit before tax	25.05	25.92
Provision for taxation	0.42	3.37
Profit after tax	24.63	22.55
Profit brought forward from Previous Year	9.27	7.31
Profit available for appropriation	33.90	29.86
Transfer to General Reserve	20.00	15.00
Proposed Dividend	6.69	5.25
Corporate Dividend Tax	0.66	0.33
Profit carried to Balance Sheet	6.55	9.27

Dividend

An Interim Dividend of 25% was distributed in November, 1997. Your Directors are pleased to recommend a Final Dividend at the rate of 45%, making in all the total dividend of 70%, for the year 1997-98 (Previous year - 55%). The total amount of dividend and tax on dividends for the current year is Rs. 7.35 crores as compared to Rs. 5.58 crores for the previous year.

The entire dividend is tax free in the hands of shareholders.

New Projects

A. SPUN SILK/BLENDED YARN PROJECT :

We are pleased to inform you that the new 100% Export Oriented Unit for the manufacture of spun silk and blended yarns, with technical know how from Italy, has commenced commercial production from 1st April, 1998. The final project cost stands at Rs. 49.07 crores. The cost overrun of Rs. 2.87 crores, which was funded out of internal accruals, is due to Rupee devaluation and delay in commercial production.

The spun silk yarn produced by this new division has been found to be excellent and matches the quality standards of the top class international silk yarn manufacturers. We have received initial trial order for these speciality silk yarn from Italy and Japan for approximately Rs. 2 crores. It may be noted that Italy and Japan are the two most important markets for these products. A sale to these countries confirms the high quality standards which has been achieved at the Company's new and modern plant.

The nature of these speciality yarn requires extensive sampling through product development. This exercise has been taken up in right earnest and we are getting ready to promote and to present our product line to the international market by way of participating in the trade fairs in USA, Europe, Japan and Hongkong. The Company has also adopted an aggressive plan for direct marketing in these countries. It takes normally upto 12/18 months to popularise such products in international markets. Regular orders are always a result of initial trial orders and we are glad to inform that requests

Himatsingka Seide Limited

for such trial orders from all the important markets are very encouraging indeed. We are hopeful that this may result in a sale of 100/150 tonnes of silk/blended yarn during the year 1998-99. This represents a capacity utilisation of about 30/35%.

In addition, our own weaving department is likely to consume 50/60 tonnes of our yarn production. The value addition likely to be achieved through this process will be very high, as has always been the case in our weaving division.

The combined sale and internal consumption is likely to give us an overall capacity utilisation of 40/50 % during the year 1998-99, and should in all likelihood rise to 80/90% a year later.

B. BLENDED FABRIC WEAVING PROJECT :

The project with weaving capacity of 600,000 Square metres has been successfully implemented at a cost of Rs 29.20 crores. The cost overrun of Rs. 0.70 crores, which was funded out of internal accruals, is due to rupee devaluation and delay in commercial production.

We have received very good response from our customers on the initial samples shown to them. It may be noted that in the furnishing trade, it usually takes about six months for finalisation of orders after the samples are approved. The unit commenced commercial production from 15th May, 1998. We expect a capacity utilisation of 50/60% during 1998-99.

C. CAPTIVE POWER PLANT :

The Company has set up a captive power plant of 4.4 MW capacity (2 units of 2.2 MW each) at a cost of Rs 6.61 crores. With this, the Company has become self sufficient in its power requirements. The cost of the power plants is included in the project costs of new units.

Prospects for the Current Year

Production and exports are expected to show better growth during the current year due to the improved market conditions. The Company's export realisation should improve due to increase in sale of value added products as well as depreciation of the Rupee. The new divisions will contribute substantially to the growth of exports.

The supply of raw silk yarn, our basic raw material continues to be normal. The price of raw silk yarn is steady.

Your Company is confident of maintaining its market leadership and is hopeful of achieving steady growth, in the years to come.

Finance

The Company has availed External Commercial Borrowing of DM 11.84 million to part finance the new projects. The Company has also availed a short term loan of US Dollars 2.98 million. A sum of USD 0.89 million (Rs. 3.80 crores) has already been repaid in May '98. The balance amount of short term loan, Rs 8.40 crores (approx.) will be repaid by August 1998.

The project cost overruns were funded out of internal accruals and Company did not avail any additional loan.

Your Company enjoys P1+ rating for its commercial paper programme of Rs 6.00 crores from CRISIL.

Depository Facility

Your Company joined National Securities Depository Limited (NSDL) effective June 1997. We are pleased to inform you that your Company has also paid one time fee to NSDL on the entire share capital which will substantially bring down the costs for the shareholders.

Subsidiary Company

Credit Himatsingka Limited (CHL), the subsidiary Company, has obtained Registration from Reserve Bank of India under the new NBFC guidelines.

CHL has invested part of its funds in a real estate project, which is nearing completion. The profits from this project is expected to be realised during the current year which will be sufficient to wipe out the accumulated losses. CHL is also liquidating its investments in shares and securities.

In line with the Company's policy of concentrating in its core business, it is our intention to dispose off the investment in subsidiary Company.

The subsidiary Company will be valued by independent Chartered Accountants and the investments in subsidiary will be disposed off based on the valuation report. We shall keep the shareholders informed as soon as the details are finalised.

Particulars, as required to be disclosed with regard to CHL, the subsidiary of the Company, under Section 212 of the Companies Act, 1956 have been annexed to the accounts of the Company.

Himatsingka Seide Limited

Personnel

The Board wishes to express its appreciation to all employees for their valuable contribution to the growth of the Company.

The Industrial Relations were cordial and an atmosphere of understanding prevailed throughout the year. As already informed, the Company has entered into a new wage agreement which will be valid till 31.3.2000.

Research and Development

Research and Development continue to provide valuable support to our exports and also to keep pace with changing customer requirements. High priority is being given to in-house research and innovation. The Design department continues to support the Company's exports by providing improved and new product designs to establish market leadership.

The R & D facilities were further enhanced on installation of an additional colour matching computer system at a cost of Rs. 24.07 lakhs during the year. Keeping in view the requirement of Blended yarn dyeing, the laboratory has been upgraded with the latest equipments. The Design Studio was expanded by building an additional wing.

Environment, Safety, Energy Conservation and Technology Absorption

Safety & environmental protection continue to be the prime concern of the Company. The Company has upgraded its Effluent Treatment facilities. A new effluent treatment plant has been imported from Germany at a cost of Rs. 52.50 lakhs. It is energy efficient, compact and one of the first of its kind in the country.

Your Company's endeavour has been to maximise efficient use of energy and safe and responsible disposal of residual wastes, while minimising adverse environmental impact and waste generation.
