REVIEW OF OPERATIONS

In the year gone by the total income of the Company has reduced from Rs.220.46 crores to Rs.184.14 crores. This has primarily been on account of raw material prices being low in the first half of the year. Also in the Mining Division there is a reduction in the quantity of Bauxite traded which has contributed to the reduction in the total income. The profit before depreciation has gone up marginally to Rs.6.27 crores from Rs.6.12 crores and the corresponding profit after tax also gone up to Rs.2.74 crores from Rs.2.35 crores.

DIVIDEND

Your Directors are pleased to recommend a Dividend of Rs.1.50 per equity share (same as previous year) i.e 15%, which will be paid in line with the applicable rules after your approval at the ensuing Annual General Meeting.

WIRE RODS & CONDUCTORS

In the year gone by the Aluminium Division of the Company has shown an increase in its production from 22,003 MT in the previous year to 25,232 MT in the current year. This has primarily on account of increase in production of Conductors which has gone up from 3117 MT to 6458 MT. The capacity utilization of Conductor Plant is consistently going up and we hope in the current year we will see significant jump over the last year figures.

We are pleased to inform you that the Company has got itself registered with most Electricity Boards in the country. We have also supplied to a lot of them and are presently having good orders for supply of Aluminium Conductors. All these should contribute to an increase in the Aluminium Division's sales.

MINING BUSINESS

The year 2009-10 was a bad year for the mining business. Iron Ore prices have been fluctuating dramatically because of which we have restricted our exposure to this commodity. There has been marginal increase in our sales from 31,297 MT to 32,620 MT. Even the Bauxite quantity has reduced significantly from 55,197 MT to 15,424 MT. This has primarily been on account of certain logistical problems faced in the year near mine locations. These problems have subsequently been solved and we hope that in the current year we will see a good increase in the volume of Bauxite

handled. This will contribute to both turnover as well as profitability of this division.

WIND POWER GENERATION

Your Company has two Wind Turbine Generator (WTG), one is of 1.25 Mega Watts located at District Nandurbar and another is 1.50 Mega Watts located at Sangli, both are in Maharashtra State. During the year 5661919.83 units of power were generated as compared to 5489480.40 units in the previous year.
