DIVIDEND

Your directors regret to inform you that on account of losses in the company no dividend is recommended for the year ended 31st March, 1998

OPERATIONS

The prevalent demand recession in the Country effected the sales of the Company and it could not increase the sales of Adhesive Tapes although production capacity was available. The Company caters to a diversified end users market segment of India which include all types of white good manufacturers, consumer durables, textiles, food and confectionery items besides products of daily consumption. The Company noticed a decline in their purchasing during the current year

Although the Company benefited from the backward integration project for BOPP film in terms of quality & availability, the declining trend of plastics prices worldwide coupled with stagnant demand resulted in all producers being forced to reduce prices for BOPP film and this year has been very difficult for this Industry and many companies have incurred huge losses.

MARKET

The Indian market has gone through a difficult year with slowdown from both consumer demand as well as capital investments. The Asian economy with special reference to South East Asian countries have effected the Indian Industry as well and the effects of their devaluation of local currencies and poor domestic demand have forced a downward trend in prices of all plastic materials. The Company expects that the market will stabilise in the current year and the Company will be able to regain the desired growth in sales of its finished products.

A. CONSERVATION OF ENERGY**a) Measure taken:**

For conservation of energy various energy saving methods were adopted, which are as follows:

Electric energy:

1. Shunt capacitor for power factor improvement of sufficient rating.
2. Use of synchronised regulator, control systems based on thyristor controlled regulator and safety devices have resulted in energy conservation.
3. Optimisation of high energy and use of high efficiency illumination resulted in energy conservation.
4. Better heat insulation of thermic fluid line has led to energy saving.
5. High efficiency energy saving infra red heating system was installed to save energy.

Saving in fuel consumption:

Fuel consumption in the D.G.set was brought down by 5% approximately by installing fuel economiser.

Electronic temperature controller of high precision and reliability were used for conservation of fuel energy at the optimum level.
