### II DIVIDEND

Yours directors regret to inform you that on account of insufficient profit in the company no dividend is recommended for the year ended 31st March 2013.

### III OPERATIONS

During the year under review:

The Company continues to increase the sales of Carton Sealing Tapes and other Specialty Adhesive Coated products by providing the customers an excellent quality product backed by dedicated customer services. The Company continues to add value to the product and has focus towards using self adhesive tapes as both a security feature and as well as a product branding tool which have resulted in higher sales and as well better contribution to the profits of the company in the current year.

The Company has now reduced its BOPP film production for converting into adhesive tapes due to cheaper availability of films in the market from the competitors and has undertaken an initiative to upgrade the quality of the film plant by some major changes in the critical components of the film plant which will become operational by March 2014, and then allow the company to make a variety of films for selling in the market.

The Company has commenced production of POF shrink films from 16th March, 2012 in the new location at Roorkee in Uttarakhand and this new product has been well appreciated in the market and will also help significantly in improving the sales turnover of the company and enhancing its profits in the current financial year.

### IV CURRENT SCENARIO

The growing sales of Carton Sealing Tapes and the acceptance of the new products developed by the Company for the Indian market and as well growth in the FMCG sector in India for all manufactured products and services provides ample opportunity for the Company to utilize full capacities for production of Self Adhesive Tapes and be able to focus on building its Brand and Image as a quality supplier of Adhesive Coated Products in India.

The Company expects to utilize 100% capacity of the POF shrink films plant during the current year which will enhance the turnover and bring good profits to the Company.

The recent fall in the value of the INR against the USD has been beneficial for the company as it has helped in promoting exports of our manufactured products, since it would now be able to take more advantage of the global network created over the last few years with consistent exports to various parts of the world for different types of packaging materials.

## **V FINANCIAL RESULTS**

The total income of the Company has increased by about 14.30% despite the slowdown in the global economy, whereas the PAT has increased marginally by about 0.39%, due to the volatility in raw material prices during the year and the higher rates of interest charged by the lenders.

The Company is confident of further improving the performance in the Current financial year and is pleased to inform you that it is moving towards greater success and prosperity and would keep looking for new opportunities to expand the business in the packaging industry.
