Your Directors present their **Forty Third Annual Report** together with the Audited Accounts for the year ended 31st March 2007.

1. FINANCIAL RESULTS

- Deferred	(97)	11
- Tax adjustments related to prior years.	(26)	-
Profit/(Loss) after taxation	(362)	67

2. DIVIDEND

Although the Company made an operating profit, however, after considering the exceptional item of employees separation cost, a position of net loss has emerged. The Directors do not, therefore, recommend any dividend for the year ended 31st March 2007.

3. PERFORMANCE

The net turnover of the Company increased by 7% to Rs. 65.87 Crores from Rs. 61.56 Crores in the previous year. The company's focus towards OEM business and the resultant investment in Fixed Assets and Technology have now started yielding results with high volume manufacturing.

Despite an increase in the company's turnover, operating margins remain under pressure, primarily on account of major cost escalations in Raw Materials and other input costs, that could not be passed on to the customers, due to competitive market conditions. Higher than normal expenses necessitated on account of the company's focus on OEM business, was an additional causative factor impacting on profitability.

As reported in the earlier years, the company's Ghatkopar unit became unviable due to high operating costs, poor worker productivity and lower price realisations due to highly competitive market conditions. The management, having exhausted all avenues of resurrecting viable operations at the Ghatkopar plant, was left with no alternative, but to close this unit. Accordingly, pursuant to the settlement with the Worker's Union in November 2006, ratified by the Honourable Mumbai

High Court, the company's Ghatkopar Plant was closed, effective 3rd August 2006. All Workmen were separated under the company's Voluntary Retirement Scheme (VRS). The terminal benefits payable to these Workmen have been accounted as per the Accounting Policy consistently followed by the company.

During the year, a new manufacturing facility to produce Asbestos-Free Heavy Commercial Vehicle and Passenger Car Brake Linings was set up at the company's Paithan Plant, resulting in additional turnover from this unit. The Plant now manufactures the entire range of Asbestos-Free Heavy duty Commercial Vehicle and Passenger Car Brake Linings, Disc Brake Pads, Roll Linings and Railway Brake Blocks.

The performance of the Bhandara Plant was generally satisfactory with increased production of Industrial Brake Linings.

The working of the Jalna Plant, although improved, the profitability remained under pressure due to major escalation in input costs and price realisation not commensurate with manufacturing cost increase.

Although, the overall position in the current year remains competitive, the company hopes to post better results in the coming years, with major investments being undertaken for capacity expansion and technology upgradation. The Company will continue to provide a major thrust towards growth in the OEM business with a focus on R & D.

The Company has revalued all its Residential Premises as on 31.03.2007 on their fair market value, using standard indices as assessed and valuation reports submitted by approved valuers. This has resulted in a net increase in the book value by Rs.16.56 crores, which has been transferred to Revaluation Reserve.

The company participated at the Automechanika Fair at Frankfurt in September 2006, thus increasing its exposure to new products and markets globally.

4. PUBLIC DEPOSITS

There were no deposits at the beginning of the year and the Company did not accept any deposits from the public during the year.

5. PERSONNEL

The information required under Section 217 (2A) of the Companies Act, 1956 is not given as none of the employee was in receipt of remuneration in excess of the limits specified thereunder.
