2. DIVIDEND

Although the Company made an operating profit, however, after considering the exceptional item of employees separation cost, a position of net loss has emerged. The Directors do not, therefore, recommend any dividend for the year ended 31st March 2008.

3. PERFORMANCE

The net turnover of the Company has increased by 9% to Rs. 71.58 Crores from Rs. 65.87 Crores in the previous year. However, operating margin remained under pressure, primarily on account of major cost escalation in raw materials and other input costs, which could not be passed on to the customers, due to competitive market conditions. Despite this the gross profit increased from Rs. 780 Lacs to Rs. 807 Lacs with several cost rationalization initiatives. Interest payment during the year was much higher at Rs. 411 Lacs (Rs. 192 Lacs), mainly on account of additional loan taken for employees separation cost. Similarly, provision for depreciation was also higher at Rs. 328 Lacs (Rs. 276 Lacs) because of new investment in fixed assets.

Therefore, after providing for increased Interest & Depreciation, the profit before the extra ordinary item was lower at

Rs. 68 Lacs (Rs. 312 Lacs) and after considering the extra ordinary item relating to employees separation cost of Rs. 383 Lacs (Rs. 779 Lacs), there was loss of Rs. 315 Lacs, as against loss of Rs. 467 Lacs in previous year.

Though, the Paithan Plant of the Company achieved higher turnover, profitability remained under pressure with lower price realization of products, due to highly competitive market conditions.

Performance of the Bhandara Plant was satisfactory with increased production of Industrial Products. The Management has entered into a Productivity Linked Agreement with the Union for a period of 3 years effective from 1st April, 2008.

Working of the Jalna Plant has also improved with increased production of Industrial Textile Products.

The Management is exploring various options to unlock the value of the Company's Ghatkopar property.

Although, market situation remained competitive, the pressure on margins, due to high inflation is expected to be cushioned with upgradation of process technology, improvement in productivity and several cost cutting measures. The Company has identified growth potential in the areas of its entire range of Asbestos-free products. The Company will continue to provide a major thrust towards growth in OEM Business with focus on R & D.

The Company participated at the Auto Expo 2008 at Pragati Maidan, New Delhi, in the month of January 2008. This is rated as the largest exhibition of its kind in Asia. The response from both Domestic & International customers is encouraging.

There were no deposits at the beginning of the year and the Company did not accept any deposits from the public during the year.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

OVERALL REVIEW

Though Indian economy continued to grow in 2007-08, its pace could not be sustained in the later part of the year, primarily because of global slow-down. Meantime, inflation have also increased from 5% to 7.5%. The situation has further aggravated with a surge in international oil prices, which has adversely impacted the cost of all essential raw materials and other inputs, resulting in pressures on margins.

PRODUCTION RANGE

Our Company is engaged in the manufacturing and marketing of fibre based composite materials, consisting of Friction and Sealing products. Friction Materials include Brake Liners, Roll Linings, Clutch Facings, Disc Brake Pads used in Heavy and Light Trucks, Passenger Cars, 2/3 wheelers, off-road-vehicles, Construction & Mining equipment. Composition Brake Blocks are also used by the Railways. Sealing materials include Jointings, Textile and Insulation Board used in automobiles and other industries.

OPPORTUNITIES AND THREATS

With a positive economic environment, the Company has positioned itself for major growth. Technologies and focus on OEM business continue to be a driving force for the Company. Several new products in Asbestos-free segment have been developed at its technology centre. However, with too many small players in the Indian Market, more particularly in the small scale sector, prices have been under constant pressure resulting in lower realization. Increase in essential input costs is again an area of concern. However, this threat is being overcome by constant product upgradation, cost reduction, value engineering and finding new markets both locally and globally.

BUSINESS OUTLOOK

Although, a competitive situation continues in the current year with higher inflation, the Company expects improved results in the coming years with upgradation of process technology, improvement in productivity and several cost cutting measures. The Company has identified growth potential in the areas of the entire range of Asbestos-free products. The Company will continue to provide a major thrust towards growth in OEM Business with focus on R & D.

RISKS AND CONCERNS

The Asbestos based products are being replaced with Asbestos-free products internationally as well as by major customers in India. The Government is also putting stricter control on manufacture and usage of Asbestos based products. While the Company is systematically displacing Asbestos based production with Asbestos free production, a complete transition can be only in a phased manner.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

The Company believes that Internal Control is a necessary concomitant of governance. The Company has effective internal control systems under which Management Reports on key performance indicators and variance analysis are made. Regular Management Committee Meetings are held, where these reports and variance analysis are discussed and action plan initiated with proper follow-up. The Internal Audit function also reviews the execution of all operations to ensure controls are adequate. Operational Reports are tabled at Board Meetings after being discussed in Audit Committee Meetings.

HRD / INDUSTRIAL RELATIONS

The thrust of the Company's human resource development is to create a responsive and market-driven organization with emphasis on performance. Continuous appraisal of the competencies of the personnel in line with job requirements are carried out to provide for necessary training to personnel thereby facilitating higher levels of output and productivity. The relations at Paithan, Bhandara & Jalna are satisfactory.

COMPANY'S FINANCIAL PERFORMANCE AND ANALYSIS

The Company's financial performance and analysis is already discussed in detail in the Directors' Report which forms part of this Annual Report.

CAUTIONARY STATEMENT

The statement in the Management Discussion and Analysis Report cannot be construed as holding out any forecasts, projections, expectations, invitations, offers, etc within the meaning of applicable securities, laws and regulations. This Report basically seeks to furnish information, as laid down within the different headings to meet the Listing Agreement requirements.
