OPERATIONS

The year ending March '09 was indeed a year of contrasts. The year started on a highly encouraging note especially in regards to Exports which during the first three quarters of the year had already crossed the whole previous year (07-08) figure by almost 18% and even Domestic sales registered a healthy growth likewise. However, the global recession which although had started showing signs from Nov-Dec'08 started actually affecting the operations of your company from Jan'09 onwards.

The turnover increased by 10% during the year.

Although the domestic market for the products of your company continuous to fare reasonably well considering the economic situation, the export market is a matter of grave concern. It is hoped that export market should start showing signs of revival by 3rd quarter, but under the present circumstances the performance of your company during current year remains a matter of grave concern.

The Investments made in the plant and machinery during year 08-09 have yielded handsome benefits in terms of cost reduction and increased production efficiency, and once the overall economic situation improves, we shall continue even further with the program of modernization of plant and machinery.
