Review of Operations

The Company has traditionally been focused on the automobile business with Plants in Uttarpara & Pithampur focusing on Ambassador range of cars and utility vehicles respectively and the Plant in Chennai focusing on Mitsubishi range of products consisting of Lancer, Cedia, Pajero & Montero.

The Company's unit at Uttarpara, in addition to the car business, has in recent years embarked on

developing a set of auto component businesses namely supplying of castings, forgings and stampings to other manufacturers in the automobile and component industries. Steps have been taken to modernize the facilities in order to increase its output and reduce costs.

These initiatives did suffer a temporary setback when the operations were affected due to industrial unrest in the first 40 days of the financial year. Normalcy was restored on 10th May, 2007 and since then the situation has been peaceful.

During the year your Company introduced a number of new models - a new variant of the Ambassador air conditioned metered taxi for Kolkata market from the Uttarpara Plant and Cedia with Auto LPG, New Pajero & Montero A/T from its Chennai Car Plant. All these products have been received well in the market and are expected to increase the sales of your Company in the current financial year.

The Ambassador cars continued to enjoy steady demand during the year from its traditional customer base such as Tourist taxi and Institutions etc.

Sale of automobiles during the year under review consisting of Ambassador, Lancer, Cedia, Sports Utility Vehicle and other Utility Vehicles is 12714 nos. compared to 13775 nos. during the previous financial year.

The margins in the automobile business remained under pressure due to increase in input costs, specifically the sharp increase in steel prices and competitive pressure on selling prices of vehicles. The Company could minimize pressure on margins by way of cost reduction and value engineering measures.

The Company's Remote Services Division, engaged in providing engineering services is confident of stepping up the sales revenue in the near future. A new branch of your Company has been opened in Japan in order to avail the business opportunities in engineering services.

A detailed Management Discussion & Analysis Report (MDAR) forms part of this report as Annexure-1.

Sale of Company's vehicles during the year was 12714 numbers compared to 13775 numbers in the previous financial year. The principal reason for lower sales numbers was the disruption of operations at the Company's Uttarpara Plant due to industrial unrest. Normalcy was restored from 10th May, 2007.

During the year, the Company's plant at Chennai introduced two models of Premium Sport Utility Vehicles from Mitsubishi Motors, Japan. A new model of 'Montero' was launched in June 2007 and an upgraded model with automatic transmission was launched in January 2008. Pajero was upgraded during the year and was launched in the market in February 2008. In line with the Company's policy of introducing low emission cars, Cedia was introduced with Auto LPG in July 2007. The Sports Utility Vehicles cater to the premium segment and the demand for such vehicles is increasing with the steady growth in economy.

The Ambassador Car caters to niche segments in the market and the demand was steady during the year. The Company launched Ambassador air conditioned metered taxi in Kolkata during the year under review.

Opportunities & Threats

The growth of passenger vehicles during 2008-09 is expected to be in the region of 8-10% lower than the 12.17% achieved in 2007-08. The GDP growth rate too is expected to be lower at 8.0%. With the increase in capacities, introduction of newer models, and entry of additional players, competition is expected to increase further. The reduction in excise duty for small cars from 16% to 12% and increase in threshold limit of exemption of personal income tax in the current year Union Budget augur well for the industry, however the continued high rate of interest and increase in petroleum and steel prices are causes for concern.

As per published report, the potential for growth and export opportunities in the auto component business is substantial. As per estimates, the auto component business has grown by ~15% during the last year. In the current financial year, the growth is expected to be around 10-15%. Even though the Company's plan suffered due to some of the unfortunate events during the industrial relations disturbance in the beginning of the year, the Company is taking number of initiatives to develop the auto component business for supplying to OEMs and to export markets. Adequate steps are being taken to develop its Foundry, Forge & Stamping Units as outward looking business units and over time these three businesses are expected to contribute significantly to the overall revenue of the Company. In order to focus and grow each of the auto component business lines namely, Forgings, Stampings and Castings, the Company has started branding them separately as Accu Forge, Accu Stamp and Accu Cast respectively.

Financial Performance

Total turnover of the Company during the year was Rs.853 Crores against Rs.806 Crores in the previous financial year. This indicates a growth of 6% compared to previous financial year. The profit before interest, depreciation and taxation for the year was Rs. 87 Crores, including other income of Rs. 119 Crores which includes profit from sale of immovable properties in the State of West Bengal.

HINDUSTAN MOTORS LIMITED

Transfer of 314 acres land for Integrated IT Township & Auto Ancillary Park at Hindmotor, in five lots is proceeding in accordance with the approval of Government of West Bengal and periodic progress reports have been filed with the Government. The West Bengal Government's subsequent recommendation for reservation of 14 acres area for the economically weaker sections of the society too is being complied with.

The Company is predominantly in automobile and auto component business. The segment-wise results are indicated in the notes schedule to the accounts.

The Outlook for the year 2008-09 and status on Human Resources/Industrial Relations are given in the Directors' Report.

Risks & Concerns

The Company is also exposed to financial

risks in the form of foreign exchange fluctuations and interest rate variations. The Company is taking appropriate steps to guard itself against these identified risks.
