THE MANAGEMENT DISCUSSION AND ANALYSIS REPORT

It is being observed that industrial scene in India is improving. In the year gone by our economy has achieved a growth in GDP @7%. The Government of India is determined to make our country a developed one. When the country grows, the food habits of its inhabitants also undergo a change. It is perceived that with the growth of economy, more and more people will shift towards packed foods due to paucity of time. It is understood that in the time to come, the packaging industry shall also achieve significant growth. Our Company is fully geared up to grab the opportunity with full vigour, vitality and commitment.

OPPORTUNITIES & THREATS

Our Company is a leading and established Company in tin packaging industry. Our Company has always concentrated its efforts towards quality upgradation and customer satisfaction.

OPPORTUNITIES

1. Historical established performance.
2. Established customer profile and wide customer base.
3. Reputation for quality.
4. Edge in raw material procurement.
5. Ability to expand and diversify.
6. Grip in export market.
7. Professionally & Technically qualified Human Resource.
8. Priority of the Government to promote Food Processing Industry.

THREATS

1. Global competition.
2. Demand shift to other forms of packaging resulting into over capacity in the industry.
3. Competition from unorganized sector.
4. Shrinking margin.
5. Concession extended by the government in excise & income tax for establishing units in northern India in the neighboring states i.e. Himachal Pradesh, Jammu & Kashmir and Uttaranchal.

PRODUCT WISE PERFORMANCE

The performance of the Company has been satisfactory in the areas like Dairy Products, Processed Foods, Coffee and Export. Our company has been successful in entering into non food areas. Efforts are also being made to enter into other segments of can.

OUTLOOK

The outlook of the Company seems to be very wide. The management of the Company is seriously engaged in the task of reducing overheads and other costs. Efforts are also being made to set up a new unit in the area of flexible packaging.

**RISK**

The Company is not exposed to any kind of risk. Risk perception is relevant with respect to Industry not the Company. The Government has given sops to the new units in northern area in the form of exemption in excise and income tax rates. The Company views it as a serious concern because of potential competition from the units which may come up in this area.

CONCERN

Rapid increase in the raw material prices especially tinplate continues to be an area of concern. During the year 2003-04 there had been an increase of 32% over 2002-03 prices and even the future trends indicate hike in steel prices. The prices have increased in domestic as well as international markets although the percentage increase in domestic is comparatively higher than that of international prices considering the landed cost to the company. We would like to place on record our appreciation to the Government for taking appropriate steps in reduction of Custom duty in case of tinplate which has given some relief, but unfortunately this reduction had been more than offset by much more increase in CIF prices of tinplate. Since tinplate constitutes major component in tin container, therefore, the company had no option than to reluctantly pass it to our esteemed customer in terms of can prices and we sincerely thank the customers for their support in this critical situation.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

All the vital internal control systems in the Company are working satisfactorily. Our statutory and internal auditors have not reported any serious departure in any of the internal control systems. The Audit Committee of the Company regularly reviews the internal control systems of the Company

FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The Company has registered an approx. 12% increase in turnover during the year 2003-2004 as compared to the year 2002-2003. The Company has been successful in reducing all the operational expenses and it has also achieved significant reduction in interest cost. However, all the benefits are filtered away with the increase in raw material cost. The Company has also registered an increase in profit before tax during the year 2003-2004 as compared to the previous year 2002-2003.

MATERIAL DEVELOPMENT IN HUMAN RESOURCES/INDUSTRIAL FUND

Annual performance appraisal system was restructured during the current year to evaluate the operational performance of each employee on the basis of predefined Key Result Area.

Industrial relation front continued to be peaceful with no working day loss due to any activity.

REPORT BY DIRECTORS ON CORPORATE GOVERNANCE

Company's Philosophy on Corporate Governance

The Company has attached significant importance to the Code of Corporate Governance. The management of the Company has always seen Corporate Governance as a tool of continuous improvement in the performance of the Company rather than compliance of listing agreement. The management of the company would further strengthen the roots of Corporate Governance in the Company. The success of the Company lies in faithful & sincere persuasion of its core values.

The core values of the Company are :

- Manpower Development.
- Integrity, openness, fairness and trust.
- Commitment to excellence.
- Customer satisfaction.

Our Company was subjected to Corporate Governance Code from the last year. The Company has constituted various committees required to be formed under the code.

Composition of the Board

The Board of Directors consists of ten directors of which five are executive directors and five are non-executive, independent-directors. In the opinion of the Board, none of the non-executive directors has any pecuniary relationship or transaction with the Company, its promoters or its management. At present the total directorship has been reduced to eight with the resignation of Sh. R. K. Miglani and Sh. J. B. Kapil.
