**MANAGEMENT DISCUSSION & ANALYSIS**

The Spinning Yarn Industry is a lifeline in Textile Business of India. The majority of employment in India is absorbed by Textile Industry. The Ministry of Textiles has given special concession by way of exemption of excise duty & creation of Technology Upgradation Fund. Keeping in view of gone of quota regime in jan. 2005 the textile sector is expected to grow more rapidly. The company is likely to be able to retire its major portion of debts and profitable working during the ensuing year is expected. It is also planning to take the full advantage of the above improved scenario.

The main Raw Material is cotton, which is based on Agricultural Production of Cotton. The production is dependent on Moonsoon. In Indian Climatic condition the moonsoon is always on unpredictable factor. Sometimes there is heavy feinfall & sometime the drought situation is created, which affects the production of cotton to a great extent creating heavy fluctuation in raw material prices. The company could not anticipate such high fluctuation & suffered losses.
