

ANNUAL REPORT **2020**

Innovation and Excellence

OUR JOURNEY TOWARDS A BETTER WORLD AROUND YOU.

Dear Members,

Normal is what got us here. Exceptional is what takes us there. The realisation of a grand vision is not about doing the same things over and over again, but about doing the right things and doing them better and exceptionally well year upon year. We believe that it is important to exceed our own standards year on year.

The year FY20, was a reasonable year for the company, as it continued to focus on expanding its presence, widening its offerings apart from mobilising additional capital. Besides, it also focused on customer centricity backed by implementation of various technology initiatives.

Hitech's business growth and operating performance in FY20 witnessed a sustained growth in an industry marked by fluctuating demand patterns and growing concerns over recycling and environmental hazards. The Company's Net Total Income dipped slightly by 0.38% to 460 crores in FY20 from 462 crores in FY19. Net Profit for the year was 2.36 crores, while EBIDTA increased by 13% to 60 crores. We believe that our performance in FY20 was indeed satisfactory, but we still need to achieve more breadth and depth with speed.

Employees as customer advocates.

At Hitech, all functional activities are integrated and aligned to deliver superior customer value. We put the customer at the centre of all our planning. Areas related to supplier relations, product and service management and quality control (besides sales and marketing) are included in shouldering the responsibility of ensuring a healthy customer experience; a constructive norm that's been consciously driven and built for the last few years at Hitech. As is the common norm within customer-centred organizations, our employees are customer advocates. Our employees collaborate with one other (across different departments) so the entire organisation is in a better position to provide value to customers.

Looking beyond our factory gate.

Our smart factories and easily configurable production lines allow us to produce best-in-class rigid plastic packaging. While we closed our manufacturing facility at Sarigam, the company successfully completed the construction work for Vizag plant by mid 2019. The total capacity of the plant at full ramp up is 3000MT. Our new plant at Mysuru too has become fully operational since the end of Sept, 2018.

Keeness to capitalise on technology.

As a manufacturing company, we have also sought to create a strong culture of innovation where we strive to identify evolving customer requirements and proactively fill in these gaps. Automating the reporting of certain key data parameters in real time helped in quick decision making. We also evaluated plant automation products which will help to improve the efficiency of production and aid in higher customer satisfaction.

Geared for an unprecedented speed-to-market for new designs and products.

Due to the pandemic, the Company was inundated with enquiries for the home care segment from many customers. Despite the lockdown conditions, the Company was able to deliver several variants of home care products as per the demands of our customers.

Customer centricity is key to re-engineering our business.

We as a manufacturing business are able to delight customers with more innovative, customised, personalised and adaptive products. Our process is not just about manufacturing products in the best way we can and employing technology for product lifecycle management, but a lot more. By putting the customer at the centre, we start thinking about how our business ecosystems can collaborate and serve the customer in new and interesting ways.

Survival in the new-normal environ.

The Covid-19 pandemic has thrown new challenges. Our plants had to shut down, our people were infected, and we were initially overwhelmed by the repercussions. In order to overcome these adversities, we have taken several steps for floor health and hygiene and also to reduce costs and better manage our cash flow. We are, more keenly than before, focusing on running our plants with better productivity. These measures include not only technical solutions and low-cost automations but also the judicious use of labour and material. We continue to explore the design and development of new products with existing and new customers to serve the changing needs of the industries to which we cater.

It is our firm belief that our *esprit de corps* will deliver us through this hardship. We are capitalising on new opportunities and investing in growth, while exercising utmost prudence to counter the challenges in the operating environment. I am indeed grateful for the continued support of all our stakeholders – customers, shareholders and employees, who have enabled us to come this far. I am confident of your support in the years to come.

For the moment, we will continue the good work and strengthen our resolve to end this year on a better note.

Best regards,

Malav Dani
