Size and Composition of Board of Directors

- * The present strength of board is 12 members out of which 10 are Non-Executive Directors including 2 Nominee Directors (one of M/s MPSEDC and one of M/s IDBI). Mr. Anil Gupta, Promoter Director and Mr. G. Sankaranaryan, Whole Time Director are the only Executive Directors

Management discussion and analysis report.

The Black & White glass industry is dependent upon Black & White TV scenario. The demand for Black & White TV is largely in India and some developing countries. The present demand for Black & White TV glass parts is around 4.5 million sets. The total installed capacity for Black & White Glass parts in the industry is around 10 million sets. Due to this, there is stiff competition in this industry.

Lack of demand in Black & White TV Industry presents an opportunity for the company to convert the facilities for manufacturing colour glass. The company would explore all the possibilities of either increasing its share in Black & White Glass industry or produce colour glass. However, the production of colour glass is subject to availability of financial resources.

During the year under review, the company had to close down its furnace for relining work and there was no forming from March 2001. Despite this, the production during the year went up from 48.83 lac nos. of glass parts to 49.63 nos. of glass parts. However, the sales went down from 52.71 lac parts to 39.69 lac parts. Due to lower sales and stoppage of furnace, the company suffered a loss of Rs. 5 crores for the first time since inception.

The outlook in the short run is dependent upon the government policy relating to rationalisation of tax structure for Black & White TV and rural electrification. The long term policy will be decided by the company after reviewing the demand position for the next 2 - 3 years. Lack of demand is the risk presented before the company and to minimize this risk, the company is taking necessary steps including the possibility of making different size of glass parts as well as colour glass parts.

Considering the size of the operation, the company has sound Internal Control Systems backed up by efficient internal audit. The working of internal auditors as well as the internal control systems are reviewed by the Audit Committee regularly.

The company suffered losses during this year primarily due to stoppage of furnace. It is expected that once the production is in full swing, the company would once again start making profits.

The company employees 240 workers. As a result of sound Human Resource Policy the industrial relations are cordial.

The company has not entered into any material, financial or commercial transaction in which management may be interested, and which may have a potential conflict with the interest of the company.
