MANAGEMENT DISCUSSION & ANALYSIS

OVERVIEW OF THE WORLD ECONOMY

GLOBAL STEEL INDUSTRY:

Overall the global steel industry witnessed steady growth during 2013-14. In 2015, steel demand growth is expected to further decelerate to 2.7%. Following a 2.0% increase in 2013, because of the moderate GDP recovery as a result of "Abenomics", apparent steel use in Japan is expected to contract by -1.0% to 64.6 Mt in 2014 due to the consumption tax hike affecting the construction and automotive sectors negatively. In 2015, steel demand is expected to increase by 0.5%.

The World Steel Association (worldsteel) released its Short Range Outlook (SRO) for 2014 and 2015. worldsteel forecasts that global apparent steel use will increase by 3.1% to 1,527 Mt in 2014 following growth of 3.6% in 2013. In 2015, it is forecast that world steel demand will grow further by 3.3% and will reach 1,576 Mt.

For 2013 as a whole, global steel demand is forecast to grow by a further 4% to reach 1,422 million tonnes. China, India and other emerging markets will continue to drive demand but recent market developments suggest likely slackening of demand. This is primarily due to the recent changes in the monetary policy in China to reduce bank credit and improve asset quality as well as lower growth forecast in India. While USA and Japan is expected to continue its recovery, steel demand in Europe is expected to fall by 1%. Overall apparent steel use growth in the developed economies will be above 2% in 2014 and 2015, however the developing and emerging economies will continue to grow faster than the developed economies despite their more subdued performances

STEEL INDUSTRY IN INDIA:

In India, steel demand is expected to grow by 3.3% to 76.2 Mt in 2014, following 1.8% growth in 2013, due to an improved outlook for the construction and manufacturing sectors, even though this will be constrained by high inflation and structural problems. Steel demand is projected to grow by 4.5% in 2015 supported by the expectation that structural reforms will be implemented.

In the Annual Plan (2013-14), which is the second year of 12th Five Year Plan (2012-17) Rs. 12.00 crore has been earmarked for existing projects. One new component under the existing R&D scheme i.e. Development of Technology for Cold Rolled Grain Oriented (CRGO) Steel Sheets and other value added innovative steel products has been included with budgetary provision of Rs. 32.00 crore and new projects under the existing scheme on Development of innovative iron/steel making Process Technology has been included with budgetary provision of Rs. 2.00 crore. India improved its ranking to become the 4th largest producer of crude steel in the world during 2012 after China, Japan and the USA. The country's production grew by around 6% in 2013-14.

BUSINESS OVERVIEW:

The main object of the company is into trading of steel. Recovery in steel demand in developed markets remains fragile, but the strong growth in steel demand in emerging markets will continue, fuelled by growing demand from infrastructure, construction and automotive end-users. The company has not done trading during the year in view of adverse market conditions and heavy forex fluctuation. The company has always explored the possibility of doing business but did not find good opportunities and hence, decided to wait till right opportunity emerges.

RISK MANAGEMENT

The objective of risk management is to ensure that it is adequately estimated and controlled to enhance shareholder as well as stakeholder's values. Risk is pertinent to virtually all business activities though in varying degrees and forms. It is the constant endeavor of the Company to identify, assess, prioritize and manage existing as well as emerging risks in a planned and cohesive manner.

CAUTIONARY STATEMENT

"Statements in Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectation may be "forward looking" within the meaning of applicable laws and regulations. Actual results might differ materially from those expressed or implied."
