DIRECTORS' REPORT

To,
The Shareholders,
SCHLAFHORST ENGINEERING (INDIA) LIMITED

Your Directors submit their Twenty Sixth Annual Report & Audited Statement of Accounts for the year ended on 31st December, 2007.

1. FINANCIAL RESULTS

	Current Year Rupees (‘000)	Previous Year Rupees (‘000)
Net Income from manufacturing	89,568	84,941
Income from trading in spare parts	24,100	23,491
Other income (Interest, Lease Rent, etc.)	12,914	11,409
Total operating income	126,582	119,841
Depreciation	5,304	5,462
Interest paid	119	4,211
Profit/(Loss) before Tax & exceptional items	18,707	6,937
Provision for taxation	305	202
Profit/(Loss) after tax and before exceptional items	18,402	6,735
<i>Exceptional items:</i>		
Profit on Sale of Vadodara property	-	157,224
Loss on obsolete assets / inventories / investments written off	-	58,649
Plant shifting expenses	-	3,660
Profit/(Loss) after Tax and exceptional items	18,402	101,650
Brought forward balance of previous year losses	239,339	340,989
Cumulative losses	220,937	239,339
Net worth	159,346	140,944

2. FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE:

- a) The Company sold 50 Draw Frames of the aggregate value of Rs.46.52 mio as against 63 Draw Frames of the aggregate value of Rs. 55.42 mio in the previous year and executed job work aggregating to Rs.57.94 mio as against Rs. 42.84 mio in the previous year. Job work constituted around 57% of the total manufacturing income. The nominal increase from Rs.24.58 mio in the

previous year to 24.76 mio for the year under review of income from sale of spare parts is mainly on account of increase in the price and not in quantitative terms. In the coming years too, on account of phasing out of old model Autoconers AC138 (which was discontinued in 1993) and AC 238 (which was discontinued in 1997) from the market, spare parts business will have negative growth. Other income includes interest from deposits of Rs.5.14 Mio (Rs.3.53 Mio in the previous year) and rent from the lease of company's Factory premise surplus to its current requirement of Rs.6.13 Mio (previous year Rs.5.14 Mio).

- b) Though the company has fully paid off most of its long term liabilities, the preference shares which are repayable anytime after 15th December, 2006 (but before 28th October 2024) are yet to be redeemed. The preference share holder (Oerlikon) has sought the redemption of preference shares as early as possible.

3. SEGMENT WISE PERFORMANCE

The operations of the company are in a single segment of Textile Machinery – High Speed Draw Frame. The job work and the sale of spare parts are not considered as separate product segments.

4. MANAGEMENT DISCUSSION AND ANALYSIS REPORT:

- (a) Industry structure and development

Since 1984, your Company has been manufacturing Draw Frame, which is used as a spinning preparatory machine by textile mills. It is a very old product designed by Zinser several years back. Due to paucity of funds, difficulty in getting competent technical hands and lack of R&D facilities, the Company has not been able to make any material technological improvement in it, except replacing PCB with PLC and some other minor changes. The Autoconer, which is essentially a yarn tester and yarn rectifier, for which your Company was set up in 1983, was discontinued in 1997 due to high cost of production and competition from imported Autoconers of superior technology from various countries. The resources so released are being used for job work since 1998.

- (b) Opportunities and Threats

There is enormous scope for the growth of textile mills industry in India which provides ample opportunity to the textile machinery industry to grow with the right technology and equipment. However, Draw Frame being manufactured by your Company is of very old design and technology. Draw Frames of superior technology

are available in the market. In the case of mills setting up new projects, the tendency is to source the Draw Frames from the manufacturers who supply a line/range of products. Besides, the Mills increasingly prefer Autoleveller Draw Frame for which your Company does not have the required technology.

(c) Outlook, risk and concerns:

i) Since 1998, the Board has been reporting to you that in the absence of a profitable product, the future of the company is far from bright. With the cumulative losses of Rs. 289 mio in 1998 which rose to Rs. 527 mio in 2003 against the paid up capital of Rs.256 mio. and the aggregate outside liabilities of Rs.314 mio in 1998 which rose to Rs. 511 mio on 15th December, 2003, the compulsory winding up of the company was quite imminent which your Directors skillfully prevented. Winding up at that stage would not have been of any benefit to the Shareholders. With the various reliefs and concessions from banks, financial institutions and others and by converting the foreign currency loan of Rs. 124 mio of your collaborators into preference shares of the same value and the profits from sale of Vadodara property, the net worth was made positive and the company which was registered with BIFR in 1999 was deregistered in May, 2007.

ii) OC Oerlikon Corporation

Your collaborator, W. Reiners Verwaltungs GmbH, Germany (WRV), who held 53.78% of the total paid up equity capital of your company was a subsidiary of Saurer AG, Switzerland who was taken over by the Swiss based OC Oerlikon Corporation AG, Pfaffikon, Churerstrasses 120, 8808 Pfaffikon SZ (Community of Freienbach), Switzerland (Oerlikon) in January, 2007. Consequently, Oerlikon was required to make a public offer to the shareholders of your company to acquire from them 20% of the equity shares of the company. Against the public announcement made by it on 9th February 2007 and the subsequent offer, Oerlikon received 1,20,229 equity shares constituting 0.62% of the total issued equity share capital of the Company.

iii) The said offer according to Oerlikon, was made to comply with the SEBI take over code and not because it had interest in any additional equity holding in the company.

iv) The Board of Directors of your Company sought to know from Oerlikon their future plan with respect to this company. The Board was told that they have not been able to find any product for the type of resources available in your Company and that the policy of Oerlikon Management is to offer product license or to make any investment only in those Companies, where it has 100% equity holding. We have been told that Oerlikon, with a view to exit from your company, has been making efforts to sell their holdings. The face value of their investment in your company is Rs. 105.5 mio (54.40%) in equity shares and Rs. 124 mio in preference shares aggregating to Rs.229.5 mio

v) In view of the fact that the Promoters are not going to introduce any new product in the company with the required investment, any further continuation of the existing business - sale of small value Draw Frame of obsolete design, spare parts, most of which are imported, job work, interest and lease rent - may keep the company floating for some more time without any tangible gain for the shareholders. In view of this and in the interest of the stakeholders, an ideal option would be to sell all the assets of the company in one or more stages which may fetch reasonable prices, pay off all the liabilities including employees' compensation and taxes, where applicable, and then wind it up as a Voluntary Winding up.

vi) The company's business undertaking was valued by M/s Bahsi Mehta & Co in association with Mott MacDonald both based in Mumbai in September, 2007 at Rs.297 Mio. The value of all tangible fixed asset is Rs.185 Mio and net current asset is Rs.112 Mio. The machineries which constitute more than 40% of the value of the said Fixed Assets (Land, Building & Machinery) are quite old and is liable to further deterioration. Most of them are acquired during 1983 to 1994. Assuming that the company is able to fetch the valuation price on sale, the net amount available after redemption of Preference Shares, payment of current liabilities and estimated employees' severance cost would be Rs. 120 Mio subject to payment of capital gain tax. The Equity Capital is Rs. 193 Mio. and carry forward book losses are Rs. 221 mio. as at 31st December, 2007. In the event of any loss in realization of current assets or write off of inventory and payment against contingent liabilities, the availability of distributable surplus will further reduce.

(d) Material development in Human Resources:

There has not been any material development in the year under review.

(e) Internal control systems and their adequacy:

The company has adequate internal control systems commensurate with its size. A firm of Chartered Accountants has been appointed as Internal Auditors of the Company, who submits its quarterly reports to the Audit Committee /the Board of Directors. Every month, a detailed Management report containing statistics on sales, income, expenses and cash flow of the company is being submitted to the Audit Committee and the Board for their review.

5. DIVIDEND

In view of the carried forward accumulated losses, your Directors do not recommend any Dividend for the year under review.

6. ISO 9001 : 2000

The Company has on 5th February 2007 obtained ISO 9001 : 2000 certificate for design, manufacturing, supply and servicing of High Speed Draw Frame Machine and manufacture and supply of spares for the same and manufacture and supply of boxes for auxiliary converters with spares.

7. PERFORMANCE OF THE CURRENT YEAR:

Total income from sale of draw frames, job work, rental income and other receipts for the first quarter ended on 31st March, 2008 was Rs.23.44 Mio with a net profit of Rs.2.77 Mio. The total orders booked and pending execution as on 31st March 2008 stood at Rs.51.24 Mio.

8. PARTICULARS OF EMPLOYEES:

The particulars of employees as required under Section 217 (2A) of the Companies Act, 1956 read with the Companies (Particulars of Employees) Rules, 1975 are as under:

Name & Date of commencement of Employment	Designation & nature of duties	Qualification & Experience (including experience in previous concerns, if any)	Remuneration received during the year (Rupees)	Age	Last employment held Name of Employer, Post held & period
Mr. CBK Pillai 09-12-1995	Managing Director Overall Management	B.A., LLB A.C.S. 23 years	Rs.16,75,650/-	58	Emco Elecon (India) Ltd. Company Secretary 7 years

Notes: Remuneration as above includes Salary, Company's contribution to Provident Fund and Superannuation Scheme, Leave Travel Allowance, Medical Expense Reimbursement, other Allowances, Bonus/Ex-gratia, Personal Accident Insurance Premium, Company's Pension, Gratuity, Gas, Electricity and Gratuity - where applicable and Retirement benefit.
