The Company has continued to be EBIDTA positive throughout this period and the increasing EBIDTA is a positive for the Lenders of the Company. The Company is proposing to restructure its debt on sustainable basis which, inter alia, could necessitate downsizing of debt including interest. However, pending restructuring, the Company is required to provide full interest in its books to comply with the relevant accounting standards and will give effect to the restructuring once it is implemented.

ARCIL has initiated the process for restructuring the debt on a sustainable basis.

IMPORTS

There is also increase in non Chinese imports. The Company will seek continuation and widening of the tariff regime to address increasing imports.

ENERGY BANKING

Captive Power Plant of the Company continued to be inoperative throughout the year in the absence of banking facility from MSEDCL. The Company has contested the wrongful denial of the banking facility and the Company's appeal in this regard is pending in the Supreme Court.
