Scientist - 'G'

Dear Shareholders,

The year ended March 2014 was a challenging year for your company. The general slow down, particularly in Auto and Steel sector from which ITL earns major share of revenue, impacted our sales during the year.

The Company during the year recorded a turnover of Rs. 45.97 crores in 2013-14 as against Rs. 48.32 crores in 2012-13. The slowdown in capital goods demand had affected the turnover of your Company in the current year.

The outlook for the Indian economy has turned distinctly positive. The increasing traction of the global economic revival and plans to restore back the investors' confidence towards India's economy through a slew of timely measures by the new Government by addressing fiscal imbalances and fast-forwarding investment activity should play out positively in the coming year. Some progress has been achieved on clearing the backlog of large projects whose approvals had been held up. GDP growth is predicted at around 5.5% in 2014-15. However industrial production needs to accelerate with the IIP declining 0.1% year-on-year in the first 11 months of 2013-14, vis-a-vis 0.9% growth in the same period last year. Inflation also remains a concern, with the wholesale and consumer price indices in March 2014 up 5.7% and 8.3% respectively year-on-year. Continuing inflationary pressures have been a constraint in reducing interest rates. In the medium term, the economy stands to benefit, if the GST is rolled out. Further initiatives and reforms in areas such as land acquisition, allocation of natural resources, and taxation would help greatly to boost investor confidence and accelerate investment activity. Overall, the stage seems set for India to shift to a higher growth trajectory. The developments on the Global and the Domestic front gives us a confidence of predicting a better years ahead.

New developments as well as modifications in existing models are necessary to offer value for money to our esteemed customers. New largest CSNC Band saw for cutting up to the size of 3000 x 2000 mm have been further developed during the year. The Department of Scientific and Industrial Research (Ministry of Science and Technology) has accorded recognition to the "In House R&D Unit" of the company. Apart from Designing and Manufacturing activities, Company's trading divisions are expected to perform well.

We remain committed to improve the Shareholders value and towards this end, we are continuously looking for the opportunities and are upgrading the infrastructure befitting to the same.

The support of our Shareholders, Business Associates, Valued Customers and Financial Institutions has always been a source of strength to us and we thank all of them wholeheartedly for remaining the integral part of our growth story. I also wish to thank all the employees for their devoted efforts in bringing up the company to the present level.

Thanking you
