MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT

- a) **Industry Structure and developments:** Your Company is a corporate member of the National Stock Exchange of India Limited in the Capital Market Segment and Future & Option Segment. The Company is also a member of HSE & OTCEI. The Company has secured license as a Corporate Agent from Insurance Regulatory and Development Authority (IRDA) for distribution of Insurance products of Life Insurance Corporation of India (LIC). The Company is expecting large returns in Futures & Options segment.
- b) **Opportunities and Threats:** The Company being a player in the financial market, the performance of the Company largely depends on national and global Capital market.
- c) **Outlook:** The year under review i.e the financial year 2002-03, has been yet another tough one, especially so for the financial market, not only for domestic but also for markets across the globe. The year proved to be bearish for the capital market. Increasing level of competition is also adding fuel to fire.

The Central Government has started the process of disinvestments in the financial 2001-02. In the initial stage of disinvestments it has faced hurdles. However, it has already completed the disinvestments in BALCO, IPCL, IBP and VSNL in previous financial year. The Government has also successfully completed the disinvestment in Maruti Udyog Limited in June, 2003. It is expected that the Government will shortly initiate the dis-investment process for many more PSUs. During the financial year 2002-03 there were large Public Offers by Canara Bank, Union Bank of India, I-Flex, Divis Laboratories etc. which fetched handsome returns to the investors. Further as the market regulator (SEBI) has decreased the lot size to Rs.1.00 lacs in F & O segment, the volumes are poised for big leap.

In view of all the above developments the Company is expecting substantial financial growth.

- d) **Risk and Concerns:** The Central Government has taken many initiatives and measures to develop the Indian Economic Scenario. While so much of positive is happening, there has never been dearth of bad news following in regularly. Disturbances, be it communal, political, financial or geographical keep happening at a frequency that is not too much for the comfort of any type of an investor. Global trends and exchange rate fluctuation also effect the inflows from FIIs, so also on the equity valuation.

The Company is exposed to stiff competition in its operation.

- e) **Internal Control system and their adequacy:** The Company has a proper and adequate system of internal control proportionate to its size and volume of business. The internal control system of the Company is designed to ensure that the financial and other records are reliable for preparing financial statements and other data for maintaining accountability of assets.
- f) **Discussion on Financial Performance with respect to Operational Performance:** The Financial Statements are prepared under the historical cost convention in accordance with Indian generally accepted accounting principles and the provisions of the Companies Act, 1956. All Income and Expenditure having a material bearing on the Financial Statements are recognised on accrual basis. The Management has taken utmost care for the integrity and the objectivity of these Financial Statements, as well as for various estimates and judgements used therein.
- g) **Material developments in Human Resources/ Industrial Relations front, including number of people involved:** The Company continues to maintain excellent relationship with the clients and the industry in which it is operating. Relationship with the staffs is quite cordial and also supporting for continuous human resource development. During the year under review there has not been any material change in human resource.
