THE PERFORMANCE:

The Company has made a turn over of Rs. 29.88 Crores during the year under review against the turn over of Rs. 27.48 Crores during the previous year. The depreciation for the year under review amounted to Rs.1.90 Crores and the depreciation for the previous year amounted to Rs. 1.01 Crores. The Company has registered a Profit after tax of Rs. 7.20 Crores during the year under review against the Profit after tax of Rs. 6.57 Crores during the previous year. Your company does not recommend any dividend for the year under review as the surplus is required for meeting out the proposed expansion activities.

FUTURE PLANS AND PROSPECTS:

Your company is progressing with the expansion plans for further capacity addition in line with the long term goal of the Company and also by keeping a cautious approach due to the Global economic meltdown crisis. The company also has taken up the task of registering the new 9 MW project with United Nations Framework Convention on Climate Change (UNFCCC) for claiming Certified Emission Reduction (CER's) under the Clean Development Mechanism. All future projects also are proposed to be registered under CDM. Your company is also evaluating new opportunities in Small Hydro & Solar Power Projects as possible areas for diversification.

INDIAN ECONOMIC SCENARIO:

The Indian Economic Growth has slipped to about 7% in the current fiscal, due to Global financial meltdown, against the recorded economic growth of 9% during the previous financial year 2007-08. The Government forecasts a GDP of 7.7%. The RBI reviewed the GDP growth to 7.58% and the International Monetary Fund (IME) has projected a growth rate 7.8% for India. Even 7% growth would be considered the Second highest growth rate in the world after China. The Government is emphasizing & gives priority for the growth of energy sector. Therefore your Company would not have problems in getting adequate support from the Government for its growth & expansion activities.

INDIAN POWER SCENARIO:

The Government of India and various state Governments have announced proactive policies to augment the Power Generation capacities which is encouraging. The National Electricity Policy (NEP) stipulates power for all by 2012 and annual per capita consumption of electricity to rise to 1000 units from the present level of 631 units. To fulfil the objectives of the NEP, a capacity addition of 78,577 MW has been proposed for the 11th plan. This capacity addition is expected to provide a growth of 9.5 % to the power sector. The all India installed power generation capacity as on January 2008 was 141080 MW comprising of 90896 MW thermal, 35208 MW hydro, 4120 MW nuclear and 10856 MW Renewable Energy Sources.

Year	Peak demand (MW)	Peak Met (MW)	Peak shortage (MW)	Peak Shortage (%)
2007-08	107010	90793	16217	15.2

The Demand Supply position in the Indian Power Sector still has a Peak Shortage of 16217 MW capacity provides an excellent opportunity for IPP's to increase their market share. As of July 2008 the installed capacity of wind power in India was 8,696 MW, which accounts for 6% of India's total installed power capacity, it generates only 1.6% of the country's power. The Ministry of New and Renewable Energy (MNRE) has fixed a capacity addition target of 10,500 MW for Wind Power between 2007-12. Your Company is confident of tapping the above potential to play a vital role.
