MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW

Infra is recognized brand in the western and southern parts of India mainly due to its quality consciousness and services rendered. The Company has expanded product portfolio and ventured in manufacturing products for Industrial applications which have been well accepted by the customers.

The growth in industry and economy will provide opportunity to excel its performance in future. The boom in the housing sector will also contribute as the main business of Infra being in water storage tanks.

INDUSTRIAL OUTLOOK

Infra has experience of more than 21 years in the field of rotational moulding. This process in western countries service many industrial and various other applications including OEMs. Being a versatile process, Infra has ventured in catering the new application markets.

The advantage of Infra having multi location production facilities which gives the benefit of availability of products to its customers and assurance to OEMs to serve their requirements in time.

OPPORTUNITIES & THREATS

With the new materials and compounds being available in the market place, various conventional materials can be replaced by plastic processing which has advantages of standardization, accuracy and availability at multiple location and the awareness and recognition by the buyers has been a positive sign for the plastic process.

The Plastic water storage tank manufacturing industries are under pressure due to the competition from unorganized sectors and also the raw material prices which can increase due to uncertainty of petrochemical industries.
