ANNEXURE-I TO DIRECTOR'S REPORT**REPORT ON MANAGEMENT DISCUSSION AND ANALYSIS****Industry structure and developments.**

Software Industry is a regularly flourishing and growing segment of Indian industry both in terms of production and in terms of export. However, the ongoing downfall of Indian rupee has seen many such companies facing operational deficit.

The company presently is into trading activities and the year under review failed to book any profit. The Losses are mainly because of market adverse condition.

Outlook

The outlook of the industry continues to remain positive basically for the fact that the gap between demand and supply of expert and efficient manpower and cost effective product continue to exist. The company belongs to Information Technology industry, which offers software packages but resources crunch have blocked everything for the company, Your Directors are trying their best to cope up with the situation and put the company back on its rails to pursue objectives of the company profitably.

The future in trading activities is bright. The Company may face some problem temporarily in respect of trading activities.

Opportunities and Threats, Risks and Concern

Opportunities will continue to exist with the increase in competition & with the principle of economy of scale. The good opportunities are there both in domestic and international markets. The company is exposed to risks from change in policy of similar companies which are major buyers of the company's product, further increase in input costs, higher levies, changes in government Policies/ laws of land, etc. may affect the profitability of the Company.

Segment - wise or product - wise performance.

The company belongs only to one product segment called software development.

Internal control system and its adequacy.

The company has adequate internal control procedures in commensuration with its size and nature of business at all desired levels.

Discussion on financial performance with respect to operational performance.

Operational efficiency of your company has continuously been affected adversely due to combination of factors technology obsolescence attrition of Knowledge resources and lack of financial resources. Restructuring of investment portfolio too got a grinding halt due to resources constraints. However, true and fair valuation to the current investment, your Directors have recorded and accounted for the diminution in the securities held by your company, which has resulted into losses for the third year in running. To withstand and wither Competition, Your Company requires integrated upgrading of overall existing infrastructure, which only would result into enhancing core competence and operational strength. Your Directors are working on the same lines and are hopeful of coming out of this locked up situation, however, there are apparent giant resources blocks in finance, business and infrastructure before your Directors.
