ECONOMIC SCENARIO

The global economic environment in recent years has been challenging which coupled with slowing growth in some of the leading global economies has impacted currencies all over the world. However, despite unpredictable headwinds, the global economic recovery seems to be gaining momentum. Specifically, the recovery in the United States was stronger than expected, which provided momentum for the global economic recovery.

After a tepid start by India's economy in FY 2014-15, there was a shift to positive sentiments led by commitments from the newly elected Government at the Centre. This campaign is designed to transform India into a global manufacturing hub. India's economy is in the midst of recovery with lower fiscal and current account deficit and structural reforms to boost investments. The Indian economy is expected to grow @ 7.5% in 2015-16 (as per the World Bank) and is expected to reach around 8% by 2017. While the various steps are being taken to de-clog the growth, it is expected that the government's reform agenda will spur economic growth and increase business sentiment this fiscal year.

Initiatives by our dynamic growth oriented prime minister to make in India projected by him across the continents has ushered into the new heights of manufacturing, which in turn will transform India very soon into a powerful manufacturing hub.

Exceptional Items represents provision against pending cases which were earlier classified as contingent liability ,however on conservative basis the same has been duly provided and also includes write off of a credit balance which is not likely to be recovered . However, excluding The Central Investment Subsidy received for Guwahati unit after 31st March 2015 of Rs 130 lac.

The top line of our company in this year has been similar to that of last year due to several contingent factors. However, we have been growing at a CAGR of 20 % during the last few years. The market scenario and the general slowdown resulted in a flat top line. However ,it should be carefully noted that in spite of our flat top line the net profit after tax was 3.35 Cr in 2014-15 viz 1.83 cr in 2013-14. The company was able to achieve this by investing in technology in machines, manpower.

Your company with due approval from its board have decided to build the state of world class art manufacturing infrastructure at all the current locations in Baddi, Rudrapur and Guwahati. Your company is investing substantial amount of capital amounting to Rs 25 Crs in building the above. These units once built will confirm to the best manufacturing facility of the world and would have been accredited by international qualifying bodies like SEDEX

These facilities once ready would be the best in India and would result in new businesses from the top 30 Companies in FMCG Pharma and food industry. Your company has acquired its competition in Baddi by the name of Jauss Polymers Ltd which had one of the top multinational company in the confectionery businesses as one of its prime customer. Approval for this acquisition has already been approved by its esteemed share holders.

The Board of Directors of our company has decided to form a subsidiary company named as innovative container services pvt., ltd to build and operate with a high growth facility of operating the container freight station and the container yard to cater to the needs of Kakinada Sea Port Ltd. This is highly profitable business and way improve the top and bottom line of your company tremendously. The approval from the IMC has been received by the company and the land has been acquired.

We are very pleased to inform that your companies rating has been upgraded. The board of directors are very pleased to inform to the shareholders that for the first time we shall be declaring a dividend to our share holders.

We hope to continue to do well in spite of all the adverse marketing conditions due to very low prices includes results in low raw material cost.

The company 's margin has slightly dipped due to the higher financial cost incurred on capex the effect of which is likely to accrue fully in coming years. Further, the company is taking positive steps towards the cost reduction so as to counter the inflationary pressures such as consistent increase in power prices, labor prices and other manufacturing costs. However, with the expected increase in turnover the company profitability is bound to shoot

The new unit will be state of art in terms of aesthetics, infrastructure and automation as will be equipped with automated material handling systems .Moreover, these units will be in a status that they can get international regulatory body clearances. Needless to say that the above development will result into 100% win win-win situation as it will not only enable us to procure business from a highly quality conscious FMCGs/MNCs engaged in food and pharma products but will also result in saving of rent, freight ,power and boost the productivity manifold .

Another major development that the company has taken over is the competitor's company in similar business in Baddi , which had a multinational company as one of its customers.

Further ,the Company has also set up a subsidiary to carry out port logistics/container services in Andhra Pradesh . Necessary approvals from The Ministry of surface Transportation have been obtained. As per the industry benchmark, this is highly profitable business and will improve performance in the upcoming years

Having regards to the Company's performance /plans CRISIL has upgraded company rating from BB-VE IN 2012-13 TO BBB -VE IN 2014-15 WHICH IS QUIET ENCOURAGING .The Company has also paid its first dividend so as to ensure that our shareholders are partners in our progress.
