Certain alterations are required in the Articles of Association of the Company for dematerialisation of Securities which is as follows :-

The Depository System seeks to eliminate the problems of the present system of manual and paper based settlement, which is highly unsuitable for any growing capital market. A large number of transactions end up in bad deliveries as a result of faulty paper work and other manual errors. Also, the instances of loss/theft/forgery of Certificates are on the rise. These can be minimised by maintaining Securities in the electronic form. It envisages a far more convenient and safer mode for issue holding and transfer/transmission of Securities.

None of the Directors of the Company is concerned or interested in this Resolution.
