## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Your Company is a multi-product company manufacturing Alcoholic Beverages (being Indian Made Foreign Liquor and Country Liquor), Malted Milkfood, Dairy Products, Glass and Plastic Containers. However, as the Alcoholic Beverages business is the major activity, the Management Discussion and Analysis Report is mainly restricted to the Alcoholic Beverages only.

### A. INDUSTRY OVERVIEW

Alcoholic Beverage industry in India comprises of Indian Made Foreign Liquor (IMFL) and Country Liquor. IMFL consists of Whisky, Rum, Brandy, Gin and Vodka etc.. Whisky comprises of large portion of IMFL market and accounts for nearly 60% of the market followed by Rum at around 20% and Brandy at around 15%. White spirits viz. Vodka, Gin and white Rum account for the balance of 5% only. The total IMFL industry in India is presently estimated at around 140 million cases growing @ 12-15% per annum. The increase rate is much higher in the low-priced segment as compared to the upper segment. Country Liquor segment is about 15 million cases per annum in the state of Punjab.

Your Company has a market share of around 8% of IMFL industry with ARISTOCRAT, ARISTOCRAT PREMIUM, AC BLACK, BONNIE SPECIAL & BINNIES as the leading brands available across the Country. Country liquor is manufactured and sold in the State of Punjab and your Company has market share of around 10% in the state of Punjab.

The Company also manufactures Malted Milkfood and Dairy products for home production and also on the Contract Manufacturing basis for the leading manufacturers in this industry.

The Industry experienced the effect of the ongoing recessionary trend during the year. The prices of main raw materials viz. molasses, grains and spirit were higher during the year as compared to previous years and have largely effected the cost of production of the Company.

However, the outlook of the Liquor Industry appears to be promising. The effect of slow down and recession is diminishing and the entire industry is likely to grow in the near future. The performance in the Glass Container sector is also expected to improve leading to higher demand. Though this division basically caters the internal demand of the Company, it has also contributed its part in the revenue generation. The increased production capacity of the unit has improved the turnover of the Company during the year.

### B. REGULATORY ENVIRONMENT

Alcoholic Beverage industry in India is highly regulated. The State Governments control the production, Excise Duty structure and the distribution. Some State Governments also control the prices. The incidence of duties is very high and there is no unanimity of policies amongst various States. The advertising of alcoholic beverages is not permitted in India.

### C. OPPORTUNITIES AND THREATS

The industry suffers due to heavy taxation and over-regulations which have affected the profitability. Heavy Excise Duty levied on the products increases the selling price thus restricting the sales. Further, the competition from domestic, multinationals and unlicensed manufacturers have also increased which is effecting the margins and restricting the sales. In line with its commitment with WTO, the Government of India has been consistently reducing the import duty on spirits, which is also a cause of concern for the liquor industry. The liquor industry is also suffering due to illicit liquor production, whereby not only the industry is suffering but also the State Governments are losing heavily on account of excise duty and sales tax etc. However, with the changing life style and increase of spending power, the Industry is witnessing a strong growth in the middle and lower price segments, where your Company is a leading player.

### D. OUTLOOK

The sales of Alcoholic Beverages (IMFL) improved during the year under review. However, as stated in the Directors' Report and the Annual Accounts for the year, the operations of the Company were affected due to restraint on its distillation capacity at its distillery at Hamira, Distt. Kapurthala, Punjab. The Company has since complied with all the requirements of the order of Hon'ble Punjab & Haryana High Court and the capacity has since been reinstated to the original level vide order of Hon'ble Punjab & Haryana High Court dated 9th June, 2009. The Company is hopeful of posting better results in the current year and maintain the same in the coming years. The market scenario during the current year also appears to be encouraging and your company is expecting to post better results during the year. To meet its production requirements in IMFL, the Company has also entered into lease agreements to augment its production capacity.

The Company is also expecting to increase the turnover in the malted milkfood and dairy products. The Glass division with its enhanced capacity produced better results and is likely to improve further during the current year.

Prices of raw materials increased during the year. Effective measures are being taken regularly to reduce the overheads costs coupled with optimum utilization of resources and better product mix. With overall growth of the economy all around, your Company is confident of growth in all the segments.

### E. INTERNAL CONTROL SYSTEMS

The Company has adequate internal control systems supplemented by internal audits by professional firms commensurate with its size and nature of business to ensure to safe guard and protect the interests and assets of the Company. A strong net work of Management Information System has been implemented to ensure the reliability of the reports and documents.
