ANNEXURE TO THE DIRECTORS' REPORT 2013-14

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

Information under Section 217(1)(e) of the Companies Act, 1956, read with the Companies (Disclosure of Particulars in the Report of Board of Directors) Rules, 1988 and forming part of the Directors' Report for the year ended 31st March, 2014.

A. CONSERVATION OF ENERGY

(a) Energy Conservation Measures Taken

The Company lays great emphasis on the conservation of energy and to give impetus to this objective, pollution control devices have been installed with generation of Bio Gas which is used as an alternate source of fuel for energy generation. Steam turbines have been installed for self generation of power thereby saving the cost of energy consumption.

- (b) Additional investments and proposals, if any, being implemented for reduction of consumption of energy.
The Company is continuously investing on the waste heat recovery system and other energy saving devices at appropriate units.
- (c) Impact of the measures at (a) and (b) above for reduction of energy consumption and consequent impact on the cost of production of goods.
With implementation of the above measures, energy consumption may reduce to a certain extent resulting in a marginal reduction of cost of production.
- (d) Total energy consumption as per prescribed Form A together with Comparative Figures for 2012-13 is as under (in respect of Dairy, Food Processing and Glass Units).

FORM A

CONSERVATION OF ENERGY

(A) Power & Fuel Consumption

	2013-14	2012-13
1. Electricity		
(a) Purchases		
Units (KWH)	470,300	13,589,700
Total amount (Rs.)	10,332,379	71,881,150
Rate/Unit (Rs.)	21.97	5.29
(b) Own Generation		
(i) Through Diesel generator Units (KWH)	34,094	1,268,862
Units per litre of diesel oil (KWH)	3.46	3.41
Cost/Unit (Rs.)	14.09	11.91
(ii) Through Steam turbine/generator		
Units (KWH)	12,184,835	11,263,071
Units per kg. of steam (KWH)	0.74	0.74
Cost/Unit (Rs.)	1.35	1.21
2. Furnace Oil		
Quantity (Tonnes)	—	35
Total Amount (Rs.)	—	999,861
Average Rate (Rs.)	—	28,251
3. Natural Gas		
Quantity (Cubic Meters)	68,497	13,073,522
Total Cost (Rs.)	2,193,861	369,252,676
Rate/Cubic Meter (Rs.)	32.03	28.24
4. LPG Gas		
Quantity (Tonnes)	9	5
Total Cost (Rs.)	484,246	2,502,684
Rate/MT (Rs.)	54,410	544,062
5. Others/Internal Generation		
Husk		
Quantity (Tonnes)	43,883	40,474
Total Cost (Rs.)	199,528,674	182,152,937
Rate/Unit (Rs.)	4,547	4,500

- (e) The Company operates with a number of factories and produces various products and uses different sources of energy in different combinations for different products. It is, therefore, not feasible to arrive at the energy consumption per unit for each source of energy as prescribed.

B. RESEARCH AND DEVELOPMENT AND TECHNOLOGY ABSORPTION

Continuous R&D effort so as to improve existing products and to develop newer products to meet the challenges of increasing competition is an on-going part of the Company's activities.

C. FOREIGN EXCHANGE EARNINGS AND OUTGO

Complete information required under this head is shown in Note No. 29.3, 29.4, 29.5 and 45 of Financial Statements. Members are requested to please refer to these Notes for the relevant information.

Directors' Report

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Your Company is a multi-product company manufacturing Alcoholic Beverages (being Indian Made Foreign Liquor and Country Liquor), Malted Milkfood, Dairy Products and Glass Containers. However, as the Alcoholic Beverages business is the major activity, the Management Discussion and Analysis Report is mainly restricted to the Alcoholic Beverages only.

A. INDUSTRY OVERVIEW

Alcoholic Beverage industry in India comprises of Indian Made Foreign Liquor (IMFL) and Country Liquor. IMFL consists of Whisky, Brandy, Rum, Gin and Vodka etc.. Whisky comprises of large portion of IMFL market and accounts for nearly 60% of the market followed by Brandy at around 20% and Rum at around 15%. White spirits viz. Vodka, Gin and white Rum account for the balance of 5% only. The total IMFL industry in India is presently estimated at around 270 million cases growing @ 8-10% per annum. The volume-wise increase rate is much higher in the low-priced segment as compared to the upper segment. Country Liquor segment is about 22 million cases per annum in the state of Punjab and your company has around 12% share in this segment.

Your Company has a market share of around 7% of IMFL industry with ARISTOCRAT, ARISTOCRAT PREMIUM, AC BLACK, BONNIE SPECIAL, BINNIES and AC SEKC as the leading brands available across the Country. The Company has introduced a new brand ROYAL PRIDE in the market in the current year. The Brands introduced in the previous year i.e. KING HENRY Scotch whisky in the Bottled in India Scotch Whisky Segment and IICE Vodka in the premium Indian vodka range are well accepted in the market. The response to ROYAL PRIDE is also encouraging. Country liquor is manufactured and sold in the State of Punjab and your Company has market share of around 12% in the state of Punjab.

The Company also manufactures Malted Milkfood on the Contract Manufacturing basis for the leading manufacturers in this industry.

The Industry experienced the effect of the recessionary trend during the previous years. Inflationary trend eroded the buying power of the general public. However, the things have now started improving and also the prices of main raw materials viz. molasses, grains and spirit have stabilized. The increase of production of contributory brands will increase the margins leading to higher profitability.

Further, the outlook of the Liquor Industry appears to be promising. Vodka is also fast growing IMFL segment in India growing @ around 10-12% per annum. The overall industry is growing @ 8-10% per annum and the growth is likely to continue in near future. The consumption of liquor in India has been in an uptrend in the past few years and is expected to improve further. The Glass Container industry has suffered a slowdown during the year due to the increase in natural gas prices and substantial increase of the capacity in north India. The Glass division plant of the Company has been shut down.

B. REGULATORY ENVIRONMENT

Alcoholic Beverage industry in India is highly regulated. The State Governments control the production, Excise Duty structure and the distribution. Some State Governments also control the prices. The incidence of duties is very high and there is no unanimity of policies amongst various States. The advertising of alcoholic beverages is not permitted in India.

C. OPPORTUNITIES AND THREATS

The industry suffers due to heavy taxation and over-regulations which have affected the profitability. Heavy Excise Duty levied on the products increases the selling price thus restricting the sales. Further, the competition from domestic, multinationals and unlicensed manufacturers have also increased which is effecting the margins and restricting the sales. In line with its commitment with WTO, the Government of India has been consistently reducing the import duty on spirits, which is also a cause of concern for the liquor industry. The liquor industry is also suffering due to illicit liquor production, whereby not only the industry is suffering but also the State Governments are losing heavily on account of excise duty and sales tax etc. However, the increasing acceptance of alcohol consumption among rich and aspiring middle class coupled with rising disposable income and a large young population indicate high growth potential for the sector. With the trend of shifting from Country liquor to IMFL sector, the Industry is witnessing a strong growth in the middle and lower price segments, where your Company is a leading player.

D. OUTLOOK

After observing a regular increase for past many years, the sales of Alcoholic Beverages (IMFL) declined around 5% during the year under review. The Company incurred operational losses on account of closure of Glass division, reduction of sales of IMFL in Andhra Pradesh due to political instability and increase of expenses on sales promotion of various IMFL brands. However, the Company foresees the increasing trend inline with the industry in the current year and years to come. With introduction of new brands and their acceptance in the market, your Company is hopeful to clock higher sales during the current year. With the cost of raw materials expected to be favorable and increasing sales turnover, your company is hopeful of posting better results in the current year and maintain the same in the coming years. The market scenario during the current year also appears to be encouraging and the demand of liquor is improving constantly. To meet its production requirements in IMFL, the Company has also entered into lease and bottling agreements to augment its production capacity. To further improve the market share and the profitability, the Company entered in the premium segment of Alcoholic Beverages by launching the new brand ROYAL PRIDE which has got encouraging response in the market. The Company has already launched KING HENRY Scotch whisky in Bottled in India Scotch Whisky Segment and IICE Vodka in the premium Indian Vodka segment and both the products have been well accepted by the public. The Company had to incur substantial amount on the brand building of the new brands introduced in the market. The Company expects that the investment made in the brand building will start yielding results in the coming years leading to higher sales and profits.

The Company is also expecting increase of production volumes of the malted milkfood products being manufactured by it. This will increase the profitability of the Company. The profitability of the Glass division was adversely affected due to the increase in natural gas prices and substantial increase of the capacity in north India. The substantial increase in capacity is the result of cheap natural gas being supplied in the Firozabad area in Uttar Pradesh. Due to this, the production of Glass division became unviable and the Company had to stop the production and the Glass division remained almost inoperative during the year under review. This also resulted in the lower sales turnover and incurring of losses by the Company during the year under review.

Prices of raw materials continued to put pressure on the margins during the year. Effective measures are being taken regularly to reduce the overheads costs coupled with optimum utilization of resources and better product mix.

E. INTERNAL CONTROL SYSTEMS

The Company has adequate internal control systems supplemented by internal audits by professional firms commensurate with its size and nature of business to ensure to safe guard and protect the interests and assets of the Company. A strong net work of Management Information System has been implemented to ensure the reliability of the reports and documents.

CORPORATE GOVERNANCE REPORT
