The works at 1000 MW Indira Sagar (Narmada) Hydro-Electric Project in Madhya Pradesh, having contract value of Rs.365 Crores, is progressing, but the stalemate at the Sardar Sarovar (Narmada) Project continues because of controversy regarding height of the Darn which is under consideration of the Supreme Court.

The work on 300 MW Baspa-II Hydro-electric Project, which was suspended in October, 1996, due to non-conclusion of Power Purchase Agreement (PPA) between the Owner Jaiprakash Hydro-Power Limited and the State Government of Himachal Pradesh, has recommenced on signing of the PPA on the 4th June, 1997.

The work of excavation for the Chutte Spillway of Tehri Dam awarded at a contract value of Rs.40.6 Crores has been completed within the stipulated period of completion.

The cement capacity utilisation during the period July, 1996 to June. 1997 was 84.04% as compared to 94.03% in the previous year. Lower capacity utilisation in 1996-97 is essentially a reflection of

the prevailing depressed cement market scenario in U.P., Bihar, M.P. and Northern region, due to various reasons beyond control of the Company, While cement market was on the downhill, the input costs have gone

up substantially. There had been an increase of over 30% in the electrical energy cost and about 25% in the coal cost during 1996-97 compared to previous year. Energy conservation measures however have helped. There had been a 6% reduction in power consumption and over 5% in coal consumption. With a view to reach higher levels of energy conservation in the plants, Holtec Consulting Pvt. Ltd. have been appointed to carry out a Plant Operational Audit for reduction in energy consumption.
