DIVIDEND

In view of the company being sick, the Directors do not recommend any dividend.

OPERATIONS

As reported last year, the company had withdrawn from those market segments which had become unremunerative for standalone metallizing companies like us in the face of very aggressive pricing by polyester film producers who had forward integrated into metallization. Thus almost 75% of the business was hit.

Considering the substantial financial losses incurred and no fresh financial infusion, even production of alternate products was seriously hampered. As a result of this, sales shrunk by 75% in value terms.

Because of the working capital constraints, a large chunk of orders were declined because of our inability to deliver in the time schedules required by the customers.

Both the domestic and exports segments were significantly affected.

The strategy was to execute only those orders for which financial support was available in terms of back to back L/C or advances from customers.

Because of financial constraints, a substantial volume of plain metallized film jobwork which is essentially a low variable margin business, was undertaken because all inputs were provided by the customer. This business constituted around 48% of production in quantitative terms. This was done only as a stop gap measure as this product no longer figures in the company's turnaround plans because of severely eroded margins in this segment, as reported earlier.

The aim was to continue with the operations and parallelly look for a long term solution either in the form of financial infusion or a strategic investor.

EXPORTS

As explained above, the major export business segment of metallized polyester film was hit hard and exports were a fraction of what was achieved in earlier years.

Exports declined by 76% in value terms to Rs. 539 lacs. Exports constituted 61% of total sales value.

The major export business of plain metallized film was hit hard.

PRODUCT DEVELOPMENT:

Despite a difficult financial situation, efforts at alternate product development continued.

Metallized paper suitable for the beer label application that was developed was launched and was successfully sold mainly in the domestic market.

A new coated film product for the insulation application was successfully developed for the export markets. This product has a good potential for the future.

TURN AROUND STRATEGY:

While the company has the potential to turn around on the basis of the strength of alternate niche rather than large volume products, first success has to be achieved on one of the two fronts:

- Identification of a strategic investor: Efforts in this direction were made through investment bankers but unfortunately nothing fructified during the year. Alternate options are being explored.
- In the absence of the above, funds will have to be raised to revive the company.

In this connection, one foreign fund had expressed confidence in being able to raise investment but the assignment could not be finalized because of a disagreement on the terms of the engagement.

We are currently in touch with another fund that has shown interest.

Success on this front is critical for the revival and turn around of the company.

OUTLOOK

The company has an excellent plant facility and has the capability to turnaround on the basis of alternate speciality coated products and metallized paper including niche products like metallic yarn in which the company has an integration advantage with inhouse production of coated film.

The company has also signed an MOU for export of one of the newly developed product.

Despite the adverse financial situation the company bagged a Rs. 5 crore L/C backed order for metallized paper from Europe for execution in the second quarter of 2008-09.

The aim now will be to concentrate on value added niche products.

However, as indicated above, the first step has to be financial restructuring either through the strategic investor route or through raising of investment.

STATUS OF REFERENCE TO BIFR

As reported last year, the company is a Sick Industrial Company within the section 3(1) (o) of the Sick Industrial Companies (Special Provisions) Act, 1985. A reference was filed with BIFR under Section 15(1) of the said Act by the company on 7th June 2004 and registered by BIFR on 21st June 2004.

The Hon'ble BIFR court in its order dated 5.9.2006 has declared the Company sick and appointed State Bank of India as the operating agency.

A techno-economic viability study was prepared and submitted to the Hon'ble BIFR. However to implement the revival the company has to first identify a suitable strategic investor or raise investment.

FIXED DEPOSITS

The company has not accepted/renewed any deposits during the year.
