MANAGEMENT'S DISCUSSION & ANALYSIS

OVERVIEW:

The Company has closed its packaging division and sold the plant and machinery, including the factory premises and has settled the loan of South Indian Bank. The Company has also started its venture in to the real estate sector. Due to drastic change in the capital requirements and looking at the big ticket players in the sector, the Company finds it has a very small capital base, which is not comfortable in the current business scenario in the real estate market. The growth in the Real Estate Sector and the Information Technology, the new business avenues, which were earlier unavailable, has risen in the real estate sector. The Company has decided to focus on low investment based activities, such as a service provider in the real estate market. On the same lines, the Company is planning to start provision of maintenance services to large commercial and residential buildings, with the latest technology and is also planning to start a real estate based web-portal, called 'homenxt.com' to reduce the hassles in the services to the consumer in the real estate market. The Company hopes that this segment will provide a new dimension for growth in the Company.

BUSINESS ENVIRONMENT:

The investment required in the real estate segment has become unaffordable and very large for our Company to undertake all at once, but due to the vast expansions of big residential complexes and the growth of commercial hubs across the country, there is a new niche market, available in the form of service providers for these complexes. Looking at the Company's strength and financials, our Company has decided to explore the new avenues thus opened and venture in to other low capital based services. This sector will always, in the view of the management will be a need of the future of the real estate sector, because the existing properties which have been developed in the recent times requires proper and regular maintenance and we see that these services will be greatly accepted and future growth seems very likely.

PERFORMANCE:

The company's performance during the year ended 31st March, 2012 was as under:

	2011 - 2012	2010 - 2011
Sales & Other Income (Rs. In Lacs)	147.16	244.41
PBDIT (Rs. In Lacs)	(31.83)	229.40
PBIT (Rs in lacs)	(32.55)	229.40

INTERNAL CONTROL & ADEQUACY:

The company has adequate internal control system to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition.

RISK MANAGEMENT SYSTEM:

We manage our business risk through strict compliance and internal control system.

OPPORTUNITIES:

The new growth and development in the real estate segments has created a lot of scope for a service provided in the industry to maintain the large commercial and residential premises and to provide an online platform to the consumer, the company is looking at an excellent opportunity for growth in this sector. Moreover a better operational margin, improving the Company's financial in the future is expected.

RISK AND CONCERNS:

Any adverse change in Real estate business or negative policy of Government will affect our new sector adversely.

OUTLOOK:

Company is focusing on service based activities for commercial and residential complexes, with a completely professional setup. The Company is also keen on having an online portal for providing of ancillary services for the properties. These are ongoing facilities for any real estate property, and hence is a lucrative business for the present and the future years. Looking at the investments in the new segments and the income from the segments, the Company is of the view that there will be better returns on the investments because the service segment still has a demand-supply gap and hence there are better opportunities, and this new sector will significantly add to the revenue and the profitability of the Company.

HUMAN RESOURCE:

Company has adequate and trained, well experienced personnel. Our employees are highly motivated and work in line of the organizational goal.

CAUTIONARY STATEMENT:

The statements made in this report describe the Company's objectives and projections that may be forward looking statements within the meaning of applicable laws and regulations. The actual results might differ materially from those expressed or implied depending on the economic conditions, government policies and other incidental factors, which are beyond the control of the Company.
