Message from the Chairman

200 years of future

When he located in the Seraing Château in 1817, John Cockerill probably did not realize just what an incredible adventure he was setting in motion. Today, the bicentennial of CMI is based around a triple objective: understand the past, celebrate the present and set out for the future.

Message from the Chairman

Dear Shareholders,

Let me begin by thanking Jean Jouet my predecessor for the expertise and direction that he brought to CMI FPE through his impeccable leadership during one of the most turbulent times your Company witnessed during the last few years. We are all thankful to him for his guidance and wish him all the best in his new assignment.

The year 2016-17, indeed, has been a year of many surprises. Firstly the meteoric rise of the charismatic Prime Minister Narendra Modi and his government followed by the demonetisation gamble and the various policy implications. These choices, I believe, will reflect on India's focus on development for the coming 12-18 months.

On the global front the theatrics were no less different, Britain's vote to exit the European Union followed by Trump's dominant win in the US only added more to the fickleness of the market.

The year 2016 was marked by a 0.8% increase in world steel production, and backed by an expected revival in consumption, Worldsteel, the international steel association, also foresees a resumption in demand for steel in 2017-18, but the long-term outlook is less positive.

However the Indian market is more optimistic. India's finished steel products output is likely to register an increase of 5.7% in 2017 as a result of a growing economy and increasing urbanization. Additionally, the steel production in India is expected to further grow in the coming years due to a new and dynamic steel policy that the government is working on, and which will give concrete shape to the vision and plans for increasing steel usage in housing and for other construction projects.

The year 2016-17 was dedicated to bring organizational approach to concrete stage. To make this operational a dedicated 'One Industry' team was put in place based on the principle – one face to the customer with Taloja and Hedavali workshops being used to their maximum potential.

The year also brought us some good orders and I can safely say that we are now slowly and steadily building a robust sales pipeline and are confident that our order entry will look very positive in the future.

During this year's second edition of the CMI Awards, a Group competition divided into three categories (Health & Safety, Innovation, Environment), CMI FPE won the much sought after 'Public Award' for its Semi Automatic Pup Coil Removal Arrangement. A project that materialized following a request from a client who wanted a safe and efficient pup coil withdrawal device. This is also an indication of the culture at CMI FPE where a client is given the best innovative product with safety as its prime focus.

I am pleased to inform you that CMI FPE has had 1347 days without 'Lost Time Accident' at its Taloja workshop and 1026 days at its Hedavali workshop as on March 31, 2017.

We are also delighted to share with you that, '2017' is earmarked as the most exciting year in the history of CMI as it celebrates its glorious 200 years of commemorating past, present and future. It is a proud moment for each one of us to be associated with CMI. We will take advantage of this milestone and develop the image of CMI Group and further use it for commercial development.

Nevertheless the new financial year will be no different in the challenges it will pose but I am optimistic and remain committed to all our stakeholders for sustainable profitable growth.

I assure you that we will continue to uphold the faith you have placed in us and look forward to your continued support.

Yours Sincerely,
Joao Felix Da Silva
