MANAGING DIRECTOR'S LETTER TO SHAREHOLDERS

(In conversation with Mr. Jayanth Viswanathan, Company Secretary)

1) What is the reason for the dip in the current year performance?

Your company is the Pioneer in the industry. We have grown tremendously in size since inception. This year we have not been able to achieve as we had expected. The reason for the dip is attributable to three imperative reasons -Recession, Labour Shortage and Power shortage. Our industry being a power intensive industry and with severe shortage of power in the country and in particular in Tamil Nadu, we have not been able to capitalize on the orders available with us. As far as Labour is concerned, our industry requires more of semi-skilled and Skilled labour. The demand is higher than the supply and attrition levels are very high. Recession is also another factor which has hit us hard as we are also an export oriented company.

2) Why is there no dividend in the current year?

As I just mentioned the factors for the decline they have had an impact on the operational profits of the company. Even a conservative dividend of about 5% would mean paying around Rs. 40 lakhs on the equity shares. This effectively means that the entire profit would have to be paid out; which would have an impact on the cashflow of the company. Thus your Board has decided to skip the dividend for this year. However I am very confident that this shall not be the case in the coming years as the market trends seems upwards and we are looking for opportunities in various other sectors too.

3) OK, now that you have got into the topic of looking into various sectors, In the previous year's Annual report, you had mentioned "We have a Goal to become a successful Multi Activity Company" What are the steps taken towards achieving it?

Primarily we see Multi Activity Company on the following counts:

- A. Increasing product mix within Jumbo Bags, that is to say, conductive bags, dissipative bags, clean room bags etc and focus on increasing the percentage of sales in terms of quantity also.
- B. We have been appointed as the Del – Credere Associate cum Consignment Stockist for Tamil Nadu, Pondicherry and kerala by Indian Oil Corporation Limited (IOCL), this is one major breakthrough for Jumbo Bag Ltd to grow in the business of trading of polymers.
- C. Find new avenues in trading, one of them is supply of LDPE which is complementary to IOCL business.
- D. Multi Layer Co-Extrusion – This is a new Liner plant which is capable of producing liner for various applications like Milk Packaging, Oil Packaging, Shrink films, cling films etc, We are in the process of evaluating the potential and prospects of this product.

4) What are the new objects that are included in the main objects of the company?

We, at Jumbo Bag have a vision to be a Multi Activity Company towards which we are already working on implementing some of the proposed new object in the current year about which I was just mentioning.

One other major object we have included is to generate power through various sources like Steam, solar, tidal and wave, Wind, Bio mass energy etc. Tamil Nadu has been witnessing serious power shortage. Our manufacturing process is power intensive. Although we have private power available, there are restrictions in usage of private power. Also, it is more expensive than grid power.

In order to mitigate this risk we want to explore the possibilities of using alternative power sources.

5) How exactly will all these new introductions benefit the company?

Basically diversification of product per se is mitigation of risk and also broadening the vision of the company. We at Jumbo Bag are always looking for opportunities in the packaging sector. Our goal is to become One-Stop-Solution for packaging where we want to be a key player in different sectors of packaging. These new objects are enabling factors for us to achieve our goals within the desired time.

6) Fine, so where do we go from here?

The order position is very positive. We are working on scaling up the production and are hoping to make impact in the new product lines and avenues we have chosen. All these will lay foundation for improved results in current year and excellent results in the future years.

As I mentioned earlier, Power is a major concern. In order to immediately curb this we have entered in a private power purchase agreement to meet the shortfall in power which enable entitle us to increase our capacity utilization. Should this scheme be operational throughout the year during period of power holiday, it shall be highly beneficial as it will reduce the fuel consumption.

Considering all these factors, I am highly confident that your company will in the coming year have an improved top line and will enable us to have a positive bottom line.

7) What is your final message to the share holders?

Your company has taken many steps in the year 2009-10. There has been a focus on measures to improve productivity, add new avenues of trade that should help your company to perform well & the end results shall add value and benefit the Share Holders.

Finally I would like to quote Swami Vivekananda Winning Formula:

"In all our actions errors and mistakes are our only teachers. Who commits mistakes, the path of truth is available to him only. Trees never make mistakes nor do stones fall into error, animals are hardly seen to transgress Law of Nature. Go Forward Assert yourself again and again and light will come "

With Brightest Hopes and Warm Regards

G.P.N GUPTA

Managing Director

NOTICE OF ANNUAL GENERAL MEETING

NOTICE is hereby given that the 20TH ANNUAL GENERAL MEETING of the members of the Company will be held at Sri Thyaga Brahma Gana Sabha, Sri P.Obul Reddy Hall, Vani Mahal, No. 103, G.N.Chetty Road, T.Nagar, Chennai – 600 017 at 10.30 a.m. on Tuesday, the 31st August, 2010 to transact the following:

Date : 31.05.2010

DIRECTOR'S REPORT

Dear Shareholders,

Your Directors have pleasure in presenting their Report and the Audited Accounts of the Company for the year ended 31st March 2010.

FINANCIAL RESULTS:

Rs. In lakhs

Particulars	2009-10	2008-2009
Income		
Sales and other Income	6405.39	7127.38
Profit before Interest, Depreciation & Taxes	574.88	710.10
Interest	279.63	319.64
Depreciation	184.09	170.74
Profit Before Tax	106.14	214.71
Current Tax	36.08	55.95
Deferred Tax	10.94	8.73
Fringe Benefit Tax	0.00	6.52
Profit After Tax	59.12	143.51
Add/Less Prior period adjustments	1.55	1.36
Profit of earlier years	305.54	216.65
Profit available for Appropriation	366.21	361.52

DIVIDEND:

Considering that we have gone through a recessionary period and the profits are very minimal, your directors after much deliberation have decided to skip the dividend for the year 2009-10.

EXTRA ORDINARY GENERAL MEETING:

The company conducted an Extra Ordinary General Meeting on March 03, 2010. Two Special resolutions were passed at the said EGM, for commencement of business specified in the other objects of the Memorandum of Association and reappointment of Sri. G.P.N Gupta as the Managing Director of the company for three years. The resolutions were passed unanimously by the shareholders at the meeting and all legal formalities relating to the same have been completed.

NSE PLATFORM TRADING:

As a testimony of good Corporate Governance your company has been selected by National Stock Exchange to trade the company's shares in the National Stock Exchange platform, details of which are given in the Report of Corporate governance.

MANAGEMENT DISCUSSION AND ANALYSIS

World Economy:

The economic crisis that we all anticipated would come to an end in the year 2009-10, seems to be imaginary as it has still significantly impacted global economic growth. According to World Economic Outlook update published by the International Monetary Fund the advanced economies were projected to record a 2 percent decline in output in 2009, while India's growth projections has been lowered from 6.3 to 5.1 percent and that of China from 8.5 to 6.75 percent.

IMF had projected that trade volume would reduced by 11.9% in the year 2009. It has also projected that imports into advanced countries would fall by 13.7% and exports from emerging economies would decline by 7.2% in the year 2009. WTO had projected that the global trade would fall 10% in the year 2009.

In the year 2010, world output is expected to rise by 4 percent. Growth in emerging and developing economies is expected to rise to about 6 percent in 2010, following a modest 2 percent in 2009. IMF informed in its world economic outlook that Indian economy is likely to register a growth of 6.5 percent in the year 2010 while China's growth rate will be around 8 percent.

In most of the advanced economies, the recovery is expected to remain sluggish by the past standards, whereas in many emerging and developing economies, activity is expected to be relatively vigorous, largely driven by buoyant internal demand.

According to the International Monetary Fund, the global growth is projected at an impressive by 4 percent in the year 2010. Meanwhile, United States is likely to bounce back to grow by around 1.6 percent, the Euro and the UK projections for growth stood at a minuscule 0.2% and that of Japan by a somewhat better 0.6%.

INDIAN ECONOMY:

The impact of the global economic and financial crisis on India in the year 2009-10 operated through three channels:

- The financial channel which diminished the ability of Indian Companies to mobilize equity and debt in foreign and domestic market;
- The trade channel which operated by eroding the import demand in developed economies and
- The collapse of business and consumer confidence in the developed economies, which depressed sentiments worldwide, unfortunately including India.

Indian economy is impacted by the slow recovery of export demand from the developed economies. The principal risk that emanates from global economy for India is inflation contagion, with crude oil prices once again in the lead. The other risk is the possibility of another setback to the world of finance, where even a small failure amplifies capacity for destabilization.

Today the Indian economy is also primarily constrained by a shortage of physical infrastructure, of which the single most important item is electricity. Shortage of electric power not only leads to direct loss of production, but also results in inefficiencies in a broad range of areas impacting profitability and competitiveness. Government being the largest and the most important player in production, transmission and distribution of power needs to take immediate corrective action to set it in the right path.

Industry Outlook:

With the world and the Indian economy taking a hit, packaging industry is no exception to it. The major consumption centers are Europe and America and they have taken a hit in the recessionary year.
