### PERFORMANCE OF THE COMPANY

During the year ended 31.03.2010, the Company achieved an overall production of 229 lakh meters of fabrics against the previous year's production of 215 lakh meters. The sales for the year ended 31.03.2010 was Rs.25851 lakhs as against sales of Rs.22054 lakhs during the previous year, representing an increase of 17 %.

The company has been able to stem the losses of earlier years and achieve positive results for the year.

### INDUSTRY STRUCTURE & DEVELOPMENT

The Indian denim industry occupies an important position in the global denim fabric and garment manufacturing. After China, it has the strongest denim manufacturing base in Asia.

During 2009-10, the Indian denim industry witnessed a surge in demand, particularly, in the domestic market. The exports were partially affected by rise in the value of the rupee. In the processed fabric sector, especially the bed linen demand for US markets showed signs of improvement only towards the end of the year.

In the apparel segment, the preference by overseas customers for packaged ready made garments continued to increase.

### OPPORTUNITIES AND THREATS

The domestic demand for denim is growing and the company is focussing on new product developments in this segment. The company is also concentrating on increase sale of its home textiles. Apparel exports is expected to grow significantly in the next year.

The increase in cotton and yarn prices in the beginning of 2010-11, the higher interest rates and the volatility in exchange rates are the serious concerns facing the company. The company is taking steps to mitigate the effects of cost increases by suitable product mix changes and also by actively managing the exchange risk.

### SEGMENT WISE PERFORMANCE

The segment wise results are presented in item 2.19 of the Notes on Accounts. Both fabric and Apparel division have done well during the year in terms of volume and profitability.

Sales of denim fabrics in domestic market increased in this year. The exports were maintained at previous year levels. The sales of processed fabrics, including home textiles were also maintained. However, the order position for home textiles improved in the last quarter of the year. The company also augmented its income by doing job work for processed fabrics for outsiders.

In the apparel segments, the sales nearly doubled with improved profitability aided by the customer preference for packaged garments.

The higher sales volume and lower cotton and yarn costs helped in posting positive results for the year, 2009-10.
